6125 E 21ST STREET
INDIANAPOLIS IN 46219-2058

Terms and conditions are in accordance with the Basic Ordering Agreement,
N00383-00-G-015F.

Raytheon Company Terms and Conditions Apply.

Latest drawing revision is applicable.

F35 - VANISHING VENDORS - OBSOLETE COMPONENTS/MATERIAL
(DSCC 52.211-9C35) (MAY 2001)

The contractor shall notify the contracting officer immediately upon finding it cannot obtain specific material or components because those materials or components are obsolete. At that time, the contractor may recommend a solution, and specify the impact such a solution will have on the contract price and delivery. If the contracting officer accepts the recommended solution, a modification shall be executed between the Government and the contractor equitably adjusting the contract price and revising the delivery. Under no circumstances shall the contractor initiate any redesign effort or incur any additional costs without the express written authorization of the contracting officer. In the event the contracting officer does not accept the recommended solution, or authorize a redesign effort by the contractor, the contract or the affected CLIN, as applicable, may be terminated for convenience in accordance with FAR Part 49 procedures, or FAR 52.212-4, Contract Terms and Conditions - Commercial Items, for commercial awards.

SUBSTITUTION OF PARTS, MATERIALS & PROCESSES-

The contractor may substitute parts without engineering data revision or customer approval under the following conditions, provided interchangeability, replaceability, testability and logistic support of the deliverable end item is not affected.

a. Substituted parts, materials and processes are authorized by a superseding specification,

OR

b. Substituted parts, materials and processes are identical to the original specified parts, except for type designation/markings change which signify state-of-the-art improvements such as temperature coefficient, solderability, temperature operating storage range, working voltage, vibration grade, tolerance and reliability levels,

OR

c. Substituted parts, materials and processes are functionally equivalent to or better than the originally specified part, material or process as determined by the end item meeting all the test requirements called out on the Raytheon engineering drawing.

CONTINUED ON NEXT PAGE

SECTION B

d. Substituted parts are equivalent to and form, fit and functionally interchangeable with the originally specified part, but have been assigned another part number, which has been included under the same National Stock Number (NSN) as shown in the Defense Logistics Agency (DLA) Master Cross Reference List (MCRL), technical bulletins or other official government documentation.

e. Contractor will notify the Buyer/Procuring Contracting Officer (PCO) of any substitute parts, which result in a change of reference number, or Federal Supply Code for manufacturing by identifying the superseding reference number, and FSCM.

CRITICAL INFORMATION-

All documentation, test equipment, notes and plans previously used by Raytheon Co or Naval Warfare Center to manufacture this item may be used as part of this task. Production Testing shall be performed utilizing test equipment developed produced or provided to Raytheon Systems. Where available Raytheon Systems shall use released FATP's, ETLs or automated test procedures for acceptance testing formally utilized by the Naval Air Warfare Center, Indianapolis, in lieu of TRDs referenced on the assembly drawings. This proposal specifically excludes any pre-production tests, first articles tests, and flight-testing requirements.

Class II change authority as well as minor waiver and deviation authority is assumed and required.
