If the contractor certifies in Provision FAR 52.222-22 and/or FAR 52.222-25 (or FAR 52.212-3 for commercial items) that it has NOT previously participated in a contract or subcontract subject to the Equal Opportunity Act or Affirmative Action Programs (requiring filing at the time of that award), and/or it has NOT filed the programs or plans required by these provisions, and/or if the contractor certifies he/she has 50 or more employees, then this award is subject to the contractor filing the required documents with the applicable Regional Office of the Department of Labor (see FAR 22.609) within 120 days after date of award.

SECTION D

D11C03 52.211-9010 MILITARY SHIPPING LABEL (MSL) REQUIREMENTS - MIL-STD-129P (MAR 2004) DLAD

(a) MIL-STD-129, Revision P, dated December 15, 2002, establishes the requirement for Contractors that ship packaged materiel to the Government to provide both linear and two-dimensional (2-D) bar coding on military shipping labels (MSLs) (but see exceptions in paragraph (d)). The new requirements apply to all shipments, which includes either depot (DLA-Direct) or DVD (Customer-Direct) shipments. Linear (Code 3 of 9 or Code 39) bar codes continue to be required on interior packages (unit and intermediate packages)

for the National Stock Number (NSN) and, when applicable, the serial number; and on shipping containers and palletized unit loads for the NSN, Contractor and Government Entity (CAGE) Code, contract number and, when applicable, the serial number.

The new requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P.

(b) The new MSL replaces former DD Form 1387 and is illustrated in Figures 2a and 2b of MIL-STD-129P. The MSL requires Code 3 of 9 or Code 39 linear bar codes for the Transportation Control Number (TCN), piece number and DoDAAC for the ultimate consignee or mark-for address. The 2-D bar code on the MSL must contain the document (requisition) number, NSN, Routing Identifier Code (RIC), Unit of Issue, Quantity, Condition Code, and Unit Price, which are ordinarily included on the DD Form 250 or the DD Form 1348-1A. MIL-STD-129P provides numerous illustrations of what must be bar-coded and the recommended placement of the bar code. When the contract omits any data element required to be bar-coded, the field should be zero-filled.

(c) MIL-STD-129P, sources for conforming labels, and related information are available on the DLA Packaging Web Site at URL: <http://www.dscclia.mil/offices/packaging/specstdslist.html#STDs>.

(d) This clause does not apply to -
(1) Subsistence items procured through full-line food distributors (prime vendors), 'market ready' type items such as fresh milk, ice cream, and other fresh dairy products, fresh bread and other fresh bakery products, and all fresh fruits and vegetables, shipped within the Continental United States (CONUS) to customers within CONUS;
(2) Any item for which ownership remains with the vendor until the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the vendor into the designated location or issuance from the designated location by vendor personnel (i.e., the vendor is required to stock bins at the customer location and/or issue parts from a vendor controlled parts room); or
(3) Bulk purchases of petroleum, oil and lubricant products delivered by (1) pipeline; or (2) tank car, tanker and tank trailer for which the container has (i) a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (ii) a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (iii) a water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas.

NOTES: In bar code element 1 above, the Document Number consists of a 14-character (15 characters when a suffix is included) alphanumeric code. It may be listed on a contract/award as the Requisition Number, Transportation Control Number (TCN), etc.

In bar code element 2 above, the NSN will appear as a 13-digit code without the dashes.

In bar code element 3 above:

The RIC for each procuring activity is as follows:

S9E - Defense Supply Center Columbus - Electronics
