GENERAL INFORMATION TO OFFERORS

This solicitation is for a Long Term Indefinite Quantity Type Contract and is designed to meet the military customers' requirements. Thus, the packaging, EDI, and FOB requirements are structured to meet the Government's objectives.

1. EACH CLIN requires MIL-STD-2073 Packaging as referenced in Section D of this solicitation. Pricing for this CLIN must be submitted on a FOB destination basis.
2. Contractors are encouraged to submit offers with a lower delivery than the Government's desired delivery as indicated in Clause F11D02.
3. The only authorized method for placing orders against this contract is the issuance of delivery orders by DSCC for Stock Requirements shipped directly to Government Depots as referenced by ALL CLINS.
4. Partial shipments are acceptable for stock purchases.
5. The use of Electronic Data Interchange (EDI) is a requirement of this solicitation/contract.

COMPLETION OF SECTIONS L AND M OF THE SOLICITATION

Contractors are advised to review and address these particular sections of the Solicitation. These Sections relate to the "Best Value" source selection evaluation parameters required in this solicitation. Offerors are strongly encouraged to provide the data identified in Section L to ensure that the Government has the appropriate information to assist in the evaluation of offers.

SECTION D

D11C03 52.211-9010 MILITARY SHIPPING LABEL (MSL) REQUIREMENTS - MIL-STD-129P (MAR 2004) DLAD

(a) MIL-STD-129, Revision P, dated December 15, 2002, establishes the requirement for Contractors that ship packaged materiel to the Government to provide both linear and two-dimensional (2-D) bar coding on military shipping labels (MSLs; (but see exceptions in paragraph (d)). The new requirements apply to all shipments, which includes either depot (DLA-Direct) or DVD (Customer-Direct) shipments. Linear (Code 3 of 9 or Code 39) bar codes continue to be required on interior packages (unit and intermediate packages)

for the National Stock Number (NSN) and, when applicable, the serial number; and on shipping containers and palletized unit loads for the NSN, Contractor and Government Entity (CAGE) Code, contract number and, when applicable, the serial number.

The new requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P.

(b) The new MSL replaces former DD Form 1387 and is illustrated in Figures 2a and 2b of MIL-STD-129P. The MSL requires Code 3 of 9 or Code 39 linear bar codes for the Transportation Control Number (TCN), piece number and DoDAAC for the ultimate consignee or mark-for address. The 2-D bar code on the MSL must contain the document (requisition) number, NSN, Routing Identifier Code (RIC), Unit of Issue, Quantity, Condition Code, and Unit Price, which are ordinarily included on the DD Form 250 or the DD Form 1348-1A. MIL-STD-129P provides numerous illustrations of what must be bar-coded and the recommended placement of the bar code. When the contract omits any data element required to be bar-coded, the field should be zero-filled.

(c) MIL-STD-129P, sources for conforming labels, and related information are available on the DLA Packaging Web Site at URL: <http://www.dsccl.dla.mil/offices/packaging/specstdslist.html#STDs>.

(d) This clause does not apply to -
 (1) Subsistence items procured through full-line food distributors (prime vendors), 'market ready' type items such as fresh milk, ice cream, and other fresh dairy products, fresh bread and other fresh bakery products, and all fresh fruits and vegetables, shipped within the Continental United States (CONUS) to customers within CONUS;
 (2) Any item for which ownership remains with the vendor until the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the vendor into the designated location or issuance from the designated location by vendor personnel (i.e., the vendor is required to stock bins at the customer location and/or issue parts from a vendor controlled parts room); or
 (3) Bulk purchases of petroleum, oil and lubricant products delivered by (1) pipeline; or (2) tank car, tanker and tank trailer for which the container has (i) a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (ii) a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (iii) a water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas.

NOTES: In bar code element 1 above, the Document Number consists of a 14-character (15 characters when a suffix is included) alphanumeric code. It may be listed on a contract/award as the Requisition Number, Transportation Control Number (TCN), etc.

In bar code element 2 above, the NSN will appear as a 13-digit code without the dashes.

In bar code element 3 above:

The RIC for each procuring activity is as follows:

S9C - Defense Supply Center Columbus - Construction
 S9E - Defense Supply Center Columbus - Electronics
 S9F - Defense Energy Support Center
 S9G - Defense Supply Center Richmond
 S9I - Defense Supply Center Philadelphia - General and Industrial
 S9T - Defense Supply Center Philadelphia - Clothing and Textiles
 S9M - Defense Supply Center Philadelphia - Medical Materiel
 S9P - Defense Supply Center Philadelphia - Perishable Subsistence
 S9S - Defense Supply Center Philadelphia - Semi-perishable Subsistence

The appropriate unit of issue (U/I) will appear as a two digit alpha character.

The quantity will appear as a five-position number, including zero fillers on the left.

The above will be followed by an 'A' and eight zeros (i.e., 'A00000000')

NO SPACES SHALL SEPARATE THE INDIVIDUAL DATA ELEMENTS WITHIN EACH LINE.

NAME OF OFFEROR OR CONTRACTOR

SECTION D

NOTICE TO CONTRACTORS:

Effective October 1, 2001, European countries are restricting shipments of material in or on Non-Manufactured Wood Packaging Material (NMWPM) (i.e., pallets, boxes, crates, etc.) that do not meet the following requirements adopted by the Commission of the European Communities (CEC): All wooden pallets and wood containers produced entirely or in part of non-manufactured softwood species shall be constructed from Heat Treated (HT to 56 degrees Centigrade for 30 minutes) coniferous material and certified accordingly by an accredited agency recognized by the American Lumber Standard Committee, Incorporated (ALSC) in accordance with Non-manufactured Wood Packing Policy and Non-manufactured Wood Packing Enforcement Regulations (see URL: <http://www.alsc.org>).

All contracts and orders where NMWPM may be used to ship material to U.S. forces and Foreign Military Sales customers in Europe are subject to these requirements. This includes all shipments moving through the Container consolidation Points at the Defense Distribution Depots in Susquehanna, PA and San Joaquin, CA, the Container Freight Station in Norfolk, VA, Army Prepositioned Ship (APS 3) Upload Site in Charleston, SC (DODAAC: W81X89 and W81YUK), and the Marine Corps Blount Island Command in Jacksonville, FL 32226-3404, and the aerial ports of embarkation at Dover, DE; Travis Air Force Base, CA; Naval Air Station, Norfolk, VA; and Charleston Air Force Base, SC to the affected countries.

PALLETIZATION NO. DC1636P001, REV. E, DATED 03029**1. SCOPE.**

This sheet covers the requirements for palletization of DSCC items of supply for handling, shipment, and storage.

2. REFERENCED DOCUMENTS.

The following documents, of the issue in effect on the date of solicitation, form a part of this palletization sheet to the extent specified herein:

STANDARDS (COMMERCIAL)

ASME-MH1 American Society of Mechanical Engineers (ASME) Pallets, Slip Sheets, and Other Bases For Unit Loads

STANDARDS (MILITARY)

MIL-HDBK-774 Palletized Unit Load (use as a reference only)

(Copies of listed federal and military specifications, standards, and associated documents listed in the Department of Defense Index of Specifications and Standards [DODISS] should be obtained from DoD Single Stock Point, Commanding Officer, Naval Publications and Forms Center, 5801 Tabor Ave., Philadelphia, PA 19120-5099. Also available on ASSIST at: <http://assist2.daps.dla.mil/quicksearch/>. The ASME-MH1 may be purchased at the ASME web site at: <http://store.asme.org/> [see "Pallets" link, then select MH1] or Phone: 1-800-843-2763 or 1-973-882-1167 or Fax: 1-973-882-1717.]

3. REQUIREMENTS.

Shipments of identical items packed in four or more shipping containers exceeding a total of 48 cubic feet per destination shall be palletized except when the shipping containers are required to be skidded (see 3C) or a quantity of four shipping containers per pallet exceeds the size or weight limitations for palletized loads (see 3A and 3B, as applicable). Shipments packaged in accordance with ASTM D3951 shall be palletized in accordance with 3A or 3B. Shipments packed Level A or Level B shall be blocked in accordance with 3B.

A. Material may be palletized on commercial pallets provided the load meets the following requirements:

- (1) The load does not exceed 52 inches in length or width, 54 inches in height, and 3000 pounds.

- (2) The load is prepared and secured in a manner that will ensure carrier acceptance and permit safe re-handling at destination.

B. Palletization shall comply with ASME-MH1, MIL-HDBK-774 and appendices will be used as a reference only.

- (1) Loads shall be stable and should not exceed the size and overseas limitations of MIL-HDBK-774.
- (2) Glued loads shall not be used.
- (3) For Level A packing, pallets shall comply with ASME-MH1, Part No. MH1/9-02SW4048. This part number shall be used for all shipments when the total weight is less than 1500 lbs evenly distributed.
- (4) For Level B packing, pallets shall comply with ASME-MH1, Part No. MH1/9-05SW4048. This part number shall be used for all shipments when the total weight is greater than 1500 lbs, but less than 3000 lbs evenly distributed.
- (5) Residual quantities of less than the quantity required for one course of the load need not be palletized.

C. Palletization is not required for shipping containers that are constructed constructed on skids. Shipping containers, except drums, exceeding 70 pounds gross weight or 40 inches in length, shall be constructed with skids. Skids shall be a minimum of 3 x 4 inch (nominal) lumber and shall be securely attached to permit multiple re-handling at destination. Drums shall be palletized.

D. The following commercial heat treatment process has been approved by the American Lumber Standards Committee (ALSC) and is required for all NMWPM entering a European country: "All wooden pallets and wood containers produced of entirely or in part of non-manufactured softwood species shall be constructed from Heat Treated (HT to 56 degrees Centigrade for 30 minutes) coniferous material and certified by an accredited agency recognized by the American Lumber Standard Committee, Incorporated (ALSC) in accordance with Non-manufactured Wood Packing Policy and Non-manufactured Wood Packing Enforcement Regulations (see URL: www.alsc.org). All wooden pallets and containers produced entirely of non-manufactured hardwood species shall be identified by a permanent marking of "NC-US," 1.25 inches or greater in height, accompanies by the CAGE code of the pallet manufacturer and the month and year of the contract. On pallets, the marking shall be applied to the stringer or on diagonally opposite sides and ends of the palletized pallet and be contrasting and clearly visible. On containers, the marking shall be applied on a side other than the top or bottom, contrasting and clearly visible. Failure to comply with all the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry.

ORDERING PROCEDURES

NSN(s): ALL

Applies to all CLINS

1. All orders for the above NSN(s), procured through DLA, will require the contractor to accept EDI transmissions in accordance with ANXI X 12 Standards through a registered value-added network (VAN). Transaction sets will be provided to the contractor at time of award.
2. Failure to establish systems(s) connectivity for successfully receiving and processing orders in accordance with electronic procedures stated in this solicitation within 60 days after date of award may be grounds for termination of the contract by the Government.

ELECTRONIC INVOICING

This contract will require the offeror to transmit invoices electronically. This involves the offeror entering into a Trading Partner Agreement with DFAS-Columbus Payment Office and conforming to the ANSI X 12 Standards, Version 2010, as specified by DFAS-Columbus. For a complete package of information, the offeror should call DFAS-CO at (614) 693-8507. Please annotate below your P.O.C. at DFAS and the date of contract.

I16D03 52.216-9C03 CONTRACT PERIOD (MAR 1981) DSCC

(a) The contract period will be for one year beginning
 on date of award;
 on a date to be specified not later than days after date of award.
 The effective date of the contract will be stated in the award.

I16D06 52.216-9C06 CONTRACT LIMITATIONS (MAR 1998) DSCC

(a) For the purposes of determining the obligations of the parties hereto with respect to the quantities to be furnished/ordered during the contract period, the following minimum and maximum quantities or dollar figures are established:
 (1) Minimum Quantity or Dollar Figure: \$109,411.00
 (2) Maximum Quantity or Dollar Figure: \$547,055.00

The Government is obligated to order only the minimum quantity or dollar figure stated above.
 (b) Partial SET-ASIDES - If this solicitation provides for a partial Small Business set-aside and the resulting award is made to a contractor receiving the set-aside and non set-aside portion, the quantities specified in paragraph (a) will be doubled.

(c) Multiple NSNs - The CONTRACT MINIMUM will be which is the total of the individual quantities or dollar estimates for all NSNs listed below. The totals listed below are estimates only and will be used to determine the minimum quantity or dollar value of the contract in the event of split awards. If there are split awards, the contract minimum will become the total of the estimates below for the NSNs awarded. The resulting contract minimum applies to the entire range of items awarded and does not guarantee that the Government will purchase any particular quantity or dollar amount of any NSN awarded. The CONTRACT MAXIMUM will be

SECTION L
INSTRUCTIONS TO OFFERORS

Proposals will be evaluated in terms of both price and other evaluation factors in accordance with the evaluation criteria contained in this solicitation. Offerors should thoroughly read and understand the terms and conditions contained in the solicitation. Failure to provide any information requested in the solicitation, may render the offeror's proposal technically unacceptable and preclude it from any further consideration for contract award. Offerors should ensure that the information contained in their proposal is factual, accurate and complete. If the Government accepts the offer, it will contractually bind the successful offeror to the terms and conditions of the solicitations.

In addition to price, the Government will evaluate other business/technical factors in accordance with the evaluation criteria contained in the solicitation. These factors are deemed essential in order to determine the offer that best meets the Government's needs.

1. PRICE

Offerors shall submit a pricing proposal for the item(s) identified in the RFP's supplies or services with the offeror's insertions of its proposed prices for each contract line item on which the offeror is making a proposal.

2. PAST PERFORMANCE

Automated Best Value System (ABVS)

Each offeror will be assigned an ABVS score based upon its past performance.

Past Performance:

Past Performance information is maintained for performance under all procurements with the Defense Logistics Agency (DLA). ** Overall performance is evaluated as is performance in each Federal supply Class (FSC). This information is used to generate ABVS ratings which are based on the following indicators:

Delivery Delinquencies

- Number
- Severity
- Contractor Caused Terminations, Cancellations, and Withdrawals

For administrative purposes, the delivery rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the Contract Delivery

Date (CDD).

Quality Complaints

- Product Nonconformance/Laboratory Test Failures
- Packaging Nonconformances

For administrative purposes, the quality rating period excludes the most recent 30 days.

** The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems

with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the "BSM Supplier Information Resource Center" and the link is <http://www.dla.mil/j-6/bsm/sirc/>.

NOTE : The above 60 and 30 day offset periods are NOT grace periods.

ABVS rating does not determine an offeror's award eligibility, or technical acceptability, nor does it constitute a responsibility or non-responsibility determination.

By accessing the DSCC Internet Bid Board System (DIBBS), (<http://dibbs.dsccols.com/>), each offeror will be provided the opportunity to review their ABVS scores and ~~negative~~ **historical performance** data. For any questions or challenges to negative performance data, please ~~forward requests/challenges~~ **forward requests/challenges** to an ABVS Administrator at the below cited address, or telephone/fax an Administrator at one of the provided numbers:

Mail request to:
Defense Supply Center, Columbus
ATTN: DSCC-PAMB
P.O. Box 3990
Columbus, OH 43216-5010

Telephone Numbers:
(614) 692-1381
(614) 692-3383
Facsimile (FAX): (614) 692-4170

When a discrepancy between contractor data and Government data occurs, the Government will make every effort to resolve the discrepancy expeditiously. However, the Government may make an award decision despite the existence of an unresolved challenge. The Government is the final authority for resolution of disputed data and its use in the source selection process.

Other Past Performance Information:

The offeror may provide past performance information, as follows, for consideration along with the offeror's ABVS score, in evaluating past performance:

- (a) A list of contracts, commercial or government, performed within the past two years, limited to three (3) government and three (3) commercial contracts for the same or similar items. The offeror shall provide or include a Point of Contact (POC), address, telephone number, an average dollar amount of the contract per annum, the period of performance, and a sample listing of the items provided for under the commercial contracts. For any government contracts, provide the government agency, a (POC), telephone number, appropriate contract number, estimated dollar value of the contract, period of performance, and a sample listing of the items provided. The Government reserves the right to limit the number of references it decides to contact.
- (b) A listing of any "problems" or discrepancies (includes shortages, overages, damages, defects, or misshipments, etc.) experienced within the past year for the contracts or customers reported in reference to paragraph 1a. Include a brief description of how these problems were addressed and remedied.

The offeror shall describe the extent of its past performance in the past two years for the contracts reported in response to paragraph (a) above for:

- (X) Subcontracting with small, small disadvantaged, women-owned small business concerns
- (X) Subcontracting with JWOD entities
- (X) Participation in the DLA Mentoring Business Agreements Program

3. DELIVERY

See Section F of the solicitation for time, place and method of delivery or performance.

4. SOCIOECONOMIC CONSIDERATIONS:

In addition to the socioeconomic proposal required under K15C01, DLAD 52.215-9002, the offeror may propose participation by Historically Black Colleges and Minority Institutions.

5. MENTORING BUSINESS AGREEMENTS PROGRAM -

The offeror shall describe, as part of its proposal, its current or proposed participation in the DLA Mentoring Business Agreements (MBA) Program. Participants:

Cite your criteria for selecting a firm with whom to mentor. In addition provide the following information with all submissions:

- a. Name, address, and office/plant location for offeror and potential small business concern participants.
- b. Point of contact, job title, and phone number of all personnel involved in the development and oversight of any agreement from both parties. The Government reserves the right to limit the number of references it decides to contact.
- c. The number of people employed by the small business concern.

- d. Plans which identify new business ventures rather than expansion of existing agreements are preferred.
- e. The mentoring plan shall specifically identify the areas of development assistance (i.e. management/technical) that will be provided. Provide a discussion of the areas chosen for mentoring.
- f. Describe the scope of the plan (i.e. whether the plan will be specifically related to the requirements contained in this solicitation or will the plan cover other government and commercial contracts).
- g. The offeror shall identify and describe the management control techniques that will be used to ensure compliance with any MBA requirement in any contract resulting from this solicitation. This should include the record keeping communication techniques and the methods to be used to control track performance.

Program Objectives:

Provide a chart indicating the milestones for program implementation.

Discuss and describe the measurements or yardsticks that will be utilized to determine if program objectives and goals have been met. Projections of successful program measurements should result in:

- (i) an increase in the dollar value of subcontracts awarded to small business and small disadvantaged business concerns under DOD contracts;
- (ii) an improvement in the level of small business/small disadvantage business participation in DOD, other Federal agencies, and commercial contracting opportunities

7. JWOD (Javits-Wagner-O-Dav Entity Proposal) PROGRAM FACTORS

The offeror may provide a proposal as required under K15C02. DLAD 52.215-9004.

(NOV 2003) DSCCM16D01 52.216-9C07 EVALUATION OF OFFERS FOR INDEFINITE
DELIVERY TYPE SOLICITATION (MAY 2003) DSCC

Subject to the terms and conditions of the solicitation relating to the evaluation of offers, the following procedure will be followed:

- (a) When offers are requested on an ordering range basis, each CLIN will be evaluated as to price by:
- [] applying a weighted factor of 18% to the first ordering range, 36% to the second ordering range, and 46% to the third ordering range to arrive at an average weighted unit price.
 - [X] applying a weighted factor of 5% to the first ordering range, 65% to the second ordering range, 25% to the third ordering range, and 5% to the fourth ordering range to arrive at an average weighted unit price.

SECTION M

EVALUATION FACTOR FOR AWARD

General Basis for Award:

Single or Split Awards: The award of each individual item of supply specified in this solicitation will be made to the responsible offeror whose offeror conforms with the solicitation and is most advantageous to the Government. In making the best value determination, the Government will make a comparative assessment of the offerors.

All proposals will be evaluated to determine that the offered price(s) reflects a technical understanding of the requirement and those considered unrealistic may be rejected.

Evaluation Factors:

The Government will base the determination of best value on a comparative assessment of the offeror's prices, past performance, and other evaluation factors as identified in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors when combined are:

(X) approximately equal to price; or

() significantly less important than price. As the evaluated price becomes more equal, relative importance of all other evaluation factors become more significant.

() significantly more important than price. As other evaluation factors become more equal, the evaluated price becomes more important.

The final award decision may be made through a trade-off between price and the non-price factors.

The following factors, ranked in descending order of importance, will be considered in the evaluation of proposals received under this solicitation:

1. Price
2. Past Performance
3. Proposed Delivery
4. Socioeconomic Support
5. DLA Mentoring Business Program
6. JWOD Program

1. **PRICE:**

The offered price will be evaluated as adjusted by price related evaluation factors identified in this solicitation and, if indicated, the following:

- (X) M16D01 – Evaluation of Offers for Indefinite Delivery Type Solicitations (DSCC 52.216-9C07) (MAY 2003)

The Government will also evaluate the reasonableness of offered prices.

2. PAST PERFORMANCE EVALUATION FACTORS:

Past performance includes but is not limited to, the offeror's record of conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior. The Government will use the past performance evaluation factors marked below:

- (X) Automated Best Value System (ABVS) (as defined below)
- (X) Socioeconomic Support
- (X) DLA Mentoring Business Program
- (X) JWOD

ABVS

The government will consider the offeror's ABVS score** and any other information provided relating to the offeror's performance (see Section L). The Government will review and evaluate the offerors reputation for conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior.

The Government may solicit information from an offeror's customers and business associates; federal, state, and local government agencies; and from other persons and organizations as deemed necessary. The Government reserves the right to limit the number of references it decides to query and to contact references other than those provided by the offeror.

An offeror's ABVS rating is an indicator of performance risk and will be evaluated first on the basis of past performance in the same Federal Supply Class (FSC) as the supplies being solicited. The Contracting Officer may consider the volume of business on which the performance score is based as a measure of confidence in the FSC score. A vendor's overall score may also be evaluated when a satisfactory measure of confidence cannot be obtained from the FSC score or if a vendor has no FSC score. The Contracting Officer may also take into consideration any other available and relevant past performance data. An offeror with no performance history in any FSC procured by DLA will be identified as a new offeror and will not be scored by the ABVS on performance. However, any other available and relevant past performance data may be considered in rendering an award decision. Regardless, the status of being a new offeror will not be grounds for disqualification for an award. New offerors may be considered more favorably than scored offerors with a poor performance record. Also, the desirability of expanding the supplier base and possible competition enhancement in future procurements will be considered in the source selection decision when new offerors are present.

** The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

**Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at

https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Supplier Information Center at <http://www.dla.mil/j-6/bsm/sirc/>. Additional information about ABVS and how to obtain your ABVS score can be found at <http://www.dscc.dla.mil/programs/abvm/>.
