CLIN 6000a – Definition of Surge and Sustainment Requirements

Surge and Sustainment (S&S) capability is defined at Clause H17D03 in this solicitation.

The S&S requirements are shown below for the item to be provided. The first 30-day requirement is the surge required to meet initial wartime or contingency. The 30-day increments following the initial surge requirement are the Sustainment quantities required. Wartime/contingency required surge would be a quantity of 25 each of this NSN in the first 30 days. The next thirty days will require a quantity of 25 each to sustain the operations. The quantities required during each 30 day increment through 90 days is indicated below.

The contractor is required to provide a proposal to indicate how the quantities and delivery periods indicated for S&S will be provided during the term of this contract. Investments required by the contractor to meet surge requirements will be indicated in CLIN 6002.

If the entire S&S requirement cannot be provided, indicate what portion can be provided or provide an alternate delivery schedule.

CLIN 6000a – Definition of Surge and Sustainment Requirements

Surge and Sustainment (S&S) capability is defined at Clause H17D03 in this solicitation.

The S&S requirements are shown below for the item to be provided. The first 30-day requirement is the surge required to meet initial wartime or contingency. The 30-day increments following the initial surge requirement are the Sustainment quantities required. Wartime/contingency required surge would be a quantity of 25 each of this NSN in the first 30 days. The next thirty days will require a quantity of 25 each to sustain the operations. The quantities required during each 30 day increment through 90 days is indicated below.

The contractor is required to provide a proposal to indicate how the quantities and delivery periods indicated for S&S will be provided during the term of this contract. Investments required by the contractor to meet surge requirements will be indicated in CLIN 6002.

If the entire S&S requirement cannot be provided, indicate what portion can be provided or provide an alternate delivery schedule.

CLIN 6001 – Cost to comply with the requirements to conduct a surge validation plan. (Insert any costs for preparation of and compliance with an S&S validation plan in accordance with Clause H15).

(Applies to all surge requirements for this solicitation)

CLIN 6002 – Investments required to meet surge requirements. (Costs should not be incurred without written approval from the contracting officer. The contractor shall not be reimbursed for any investments under this CLIN without prior written approval from the contracting officer.)

(Applies to all surge requirements for this solicitation)

The offeror must specify the percentage of price increase for surge quantities above or state “none”. If the offeror fails to do so, the offer will be evaluated with no additional charge for surge quantities.

SECTION D

D11C01 52.211-9008 BAR CODING (APPLICABLE TO DSCC, DSCP
AND DSCR ONLY) (FEB 2004) DLAD

(a) This bar coding requirement is applicable only to solicitations and awards issued by DSCC, DSCP, and DSCR that required shipments of material to a location other than a DLA Distribution Depot (i.e., direct vendor delivery (DVD)). This

clause requires a linear bar code only.

(b) In addition to other marking requirements in this contract, the following separate lines of bar coded data, with

Human Readable Interpretation (HRI) printed directly below the

element, shall be provided:

- (1) Document number and suffix.
- (2) National Stock Number (NSN) (in absence of the NSN, the CAGE and Part Number).
- (3) ICP Routing Identifier Code (RIC), Unit of Issue, quantity, followed by an 'A' and eight zeros.
- (c) These bar code markings shall either be placed on or printed on labels affixed to either the DD Form 250/250c or the commercial packing list. If used on DD Form 250/250c, it should be in blocks 15, 16, 17, etc. In either case, these documents shall be furnished in Packing List Envelopes affixed

to the outside of the shipping container.

(d) The bar code symbology shall be Code 3 of 9 (Code 39) in accordance with ISO/IEC-16388.

NOTES: In bar code element 1 above, the Document Number consists of a 14-character (15 characters when a suffix is included) alphanumeric code. It may be listed on a contract/award as the Requisition Number, Transportation Control Number (TCN), etc.

In bar code element 2 above, the NSN will appear as a 13-digit

code without the dashes.

In bar code element 3 above:

The RIC for each procuring activity is as follows:

S9C - Defense Supply Center Columbus - Construction

S9E - Defense Supply Center Columbus - Electronics
S9G - Defense Supply Center Richmond
S9I - Defense Supply Center Philadelphia - General and Industrial
S9T - Defense Supply Center Philadelphia - Clothing and Textiles
S9M - Defense Supply Center Philadelphia - Medical Materiel
S9P - Defense Supply Center Philadelphia - Perishable Subsistence
S9S - Defense Supply Center Philadelphia - Semi-perishable Subsistence
The appropriate unit of issue (U/I) will appear as a two digit

alpha character.

The quantity will appear as a five-position number, including zero fillers on the left.

The above will be followed by an 'A' and eight zeros, (i.e. 'A00000000')

NO SPACES SHALL SEPARATE THE INDIVIDUAL DATA ELEMENTS WITHIN EACH LINE.

D11C03 52.211-9010 MILITARY SHIPPING LABEL (MSL)
REQUIREMENTS - MIL-STD-129P (MAR 2004) DLAD

(a) MIL-STD-129, Revision P, dated December 15, 2002, establishes the requirement for Contractors that ship packaged materiel to the Government to provide both linear and two-dimensional (2-D) bar coding on military shipping labels (MSLs) (but see exceptions in paragraph (d)). The new requirements apply to all shipments, which includes either depot (DLA-Direct) or DVD (Customer-Direct) shipments. Linear (Code 3 of 9 or Code 39) bar codes continue to be required on interior packages (unit and intermediate packages)

for the National Stock Number (NSN) and, when applicable, the serial number; and on shipping containers and palletized unit loads for the NSN, Contractor and Government Entity (CAGE) code, contract number and, when applicable, the serial number.

The new requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P.

(b) The new MSL replaces former DD Form 1387 and is illustrated in Figures 2a and 2b of MIL-STD-129P. The MSL requires Code 3 of 9 or Code 39 linear bar codes for the Transportation Control Number (TCN), piece number and DoDAAC for the ultimate consignee or mark-for address. The 2-D bar code on the MSL must contain the document (requisition) number, NSN, Routing Identifier Code (RIC), Unit of Issue, Quantity, Condition Code, and Unit Price, which are ordinarily included on the DD Form 250 or the DD Form 1348-1A. MIL-STD-129P provides numerous illustrations of what must be bar-coded and the recommended placement of the bar code. When the contract omits any data element required to be bar-coded, the field should be zero-filled.

(c) MIL-STD-129P, sources for conforming labels, and related information are available on the DLA Packaging Web Site at URL:

<http://www.dscclia.mil/offices/packaging/specstdalist.html#STDS>

(d) This clause does not apply to -

- (1) Subsistence items procured through full-line food distributors (prime vendors), 'market ready' type items such as fresh milk, ice cream, and other fresh dairy products, fresh bread and other fresh bakery products, and all fresh fruits and vegetables, shipped within the Continental United States (CONUS) to customers within CONUS;
- (2) Any item for which ownership remains with the vendor until the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the vendor into the designated location or issuance from the designated location by vendor personnel (i.e., the vendor is required to stock bins at the customer location and/or issue parts from a vendor controlled parts room); or
- (3) Bulk purchases of petroleum, oil and lubricant products delivered by (1) pipeline; or (2) tank car, tanker and tank trailer for which the container has (i) a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (ii) a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (iii) a water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas.

H17D03 52.217-9C23 SURGE AND SUSTAINMENT (S&S)
REQUIREMENTS (MAR 2004) DSCC

Surge and sustainment (S&S) capability is defined as the ability of the contractor to meet increased quantity/accelerated delivery requirements, using supplier base capabilities, in support of a broad spectrum of possible contingencies. The S&S capability refers to an overall capability. This ability includes both a capability to ramp-up quickly to meet early requirements (i.e., surge), as well as to sustain an increased pace throughout the contingency(s) (i.e., sustainment). The spectrum of possible contingencies includes major theatre warfare and smaller-scale contingency operations. The increased quantity/accelerated delivery requirements are those above and beyond normal peacetime requirements.

CLIN 6000 identifies the S&S requirements. The requirements should be priced based on delivering the stated quantity within the stated delivery timeframes. The Government may issue an order or series of orders equaling the surge quantities. Orders for the S&S requirements will be placed by issuance of written or electronic orders. S&S orders will not count towards the contract maximum.

As part of S&S, the contractor is required to conduct a capability assessment which demonstrates the contractor's strategy and plans to meet the S&S requirement.

(X) See provision L17D04, DSCC 52.217-9C26. The contractor's submission to this provision constitutes the capability assessment.

() At the contracting officer's direction, the contractor will be required to submit the capability assessment after award.

If the contractor identifies that S&S investments are needed in order to provide the S&S requirement, then the contractor must identify the costs in CLIN 6002. The contractor must provide the reasons the investments are needed for these items, a detailed explanation of what will be purchased, the S&S capability to be gained, the basis for the estimated costs of these investments, an analysis of what surge strategies were examined and why the proposed strategy is the most cost-effective. See I17C03, DLAD 52.217-9006, for additional information on allowable surge investment costs.

If the S&S proposal shows S&S investments are needed, (as documented and priced in CLIN 6002), the contractor shall have full capability of providing the S&S requirements identified in Section B of the solicitation, within the standard contract production lead-time unless a shorter time period is agreed to by the contractor and the Government after receipt of investment funds/material from the Government.

If the S&S proposal shows no S&S investments are needed, the contractor shall have full capability to provide the S&S requirements identified in Section B of this solicitation within the standard contract production lead-time unless a shorter time period is agreed to by the contractor and the Government.

After award, the contractor may be required to submit a test plan for the S&S requirements. After approval by the Contracting Officer of the S&S test plan, the contractor may be required to conduct S&S tests, or allow the government to perform S&S tests to validate the S&S capability. These tests may be in the form of paper exercises, simulations, command post exercises, or participation in live exercises (to include the Joint Chiefs of Staff (JCS) and Commander in Chiefs (CINC) exercises), or any other methodology that can validate the S&S capability.

The contractor shall maintain the S&S capability throughout the life of the contract. Any significant changes in the contractor's supplier base capabilities that would impact the contractor's S&S capability, shall be reported in writing to the Contracting Officer immediately after the contractor becomes aware of the change.

The Government may refine, reassess, or update its S&S requirements during the life of the contract, or the contractor's supplier base capabilities may change during the contract period. Either of these conditions may necessitate the contractor's reassessment of its supplier base capabilities and development of new/changed S&S strategies. Changes in S&S requirements will be made through bilateral contract modifications. Changes in contractor S&S capabilities will be made through contractor submission of a revised S&S capability assessment and revised test plan (if applicable) that addresses the changes.

The contracting officer shall evaluate both the revised S&S capability assessment and the revised S&S test plan (if applicable) for acceptability. The government reserves the right to require additional assessments/plans if the initial or any subsequent submissions are not approved.

If S&S investments are needed as a result of changed circumstances, the revised S&S capability assessment must provide the reason(s) investments are needed for these items, a detailed explanation of what will be purchased, the S&S

capability to be gained, the basis for the estimated costs of these investments, an analysis of what surge strategies were examined and why the proposed strategy(ies) is(are) the most cost-effective.

The above language does not limit the government's right, at any time after award, to perform inspections or test the contractor's S&S capability. In the event a contingency occurs before the contractor develops full S&S capability to address changed circumstances, or the contingency requirements exceed those defined in Section B, the contractor shall support S&S requirements to the maximum extent possible.

If the contractor fails to perform in accordance with the requirements set forth, a contingency(s) arises before the contractor has established full S&S capability to address changed circumstances, or other circumstances create a need, the government has the right to take any action necessary to obtain S&S requirements from other sources (including sources in the contractor's supplier base). This language does not relieve the contractor from responsibility for providing peacetime level quantities during the contingency (i.e.: non-surge requirements).

I16A16 52.216-18 ORDERING (OCT 1995) FAR

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued --

FROM: DATE OF CONTRACT AWARD

THROUGH: ONE YEAR FOLLOWING CONTRACT AWARD DATE

I16A17 52.216-19 ORDER LIMITATIONS (OCT 1995) FAR

(a) Minimum Order. When the Government requires supplies or services covered by this contract in an amount of less than DVD or One Stock, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum Order. The Contractor is not obligated to honor -

(1) Any order for a single item in excess of DVD or Stock

(2) Any order for a combination of items in excess of 190 , or

(3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(d) Notwithstanding paragraphs (b) and (c) above, the contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 20 days after issuance, with written notice stating the contractor's intent not to ship the item (or items) called for and the reasons.

I16A24 52.216-22 INDEFINITE QUANTITY (OCT 1995) FAR

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after one year from the expiration date of this contract or final scheduled delivery date under any delivery order placed hereunder, whichever is later.

I16D02 52.216-9C02 PRICING OF DELIVERY ORDERS (JUN 2003) DSCC

(a) In pricing delivery orders requiring delivery of one NSN to multiple destinations, the price for each destination will be based on:

- (1) The quantity range price based on the total quantity of the NSN being procured under each delivery order regardless of destination.
- (2) The quantity being shipped to each destination.

(b) If this solicitation/contract contains provision for placement of orders through POPS (Paperless Ordering Placement System), unit prices for those orders will be based on:

- (1) The total quantity of all requirements for each NSN issued via POPS in a single day, regardless of the number of individual orders.
- (2) The quantity of each individual order.

(c) If this solicitation provides for partial set-aside and the set-aside portion is awarded to the same contractor receiving the award on the non-set-aside portion, the pricing of delivery orders will be accordance with paragraph (a) above.

(d) The minimum quantity to be ordered, per destination, will be the minimum ordering range quantity if specified in section B hereof, for each item.

I16D03 52.216-9C03 CONTRACT PERIOD (MAR 1981) DSCC

(a) The contract period will be for one year beginning

- on date of award;
 - on a date to be specified not later than days after date of award.
- The effective date of the contract will be stated in the award.

I16D06 52.216-9C06 CONTRACT LIMITATIONS (MAR 1998) DSCC

(a) For the purposes of determining the obligations of the parties hereto with respect to the quantities to be furnished/ordered during the contract period, the following minimum and maximum quantities or dollar figures are established:

- (1) Minimum Quantity or Dollar Figure:
- (2) Maximum Quantity or Dollar Figure:

The Government is obligated to order only the minimum quantity or dollar figure stated above.

(b) Partial SET-ASIDES - If this solicitation provides for a partial Small Business set-aside and the resulting award is made to a contractor receiving the set-aside and non set-aside portion, the quantities specified in paragraph (a) will be doubled.

(c) Multiple NSNs - The CONTRACT MINIMUM will be 3- (three) , which is the total of the individual quantities or dollar estimates for all NSNs listed below. The totals listed below are estimates only and will be used to determine the minimum quantity or dollar value of the contract in the event of split awards. If there are split awards, the contract minimum will become the total of the estimates below for the NSNs awarded. The resulting contract minimum applies to the entire range of items awarded and does not guarantee that the Government will purchase any particular

quantity or dollar amount of any NSN awarded. The CONTRACT MAXIMUM will be 385

CHECK APPLICABLE BLOCK:

() Contract period as defined in this clause means the extended contract shall be inclusive of the option period.
(x) Contract period as defined in this clause means a separate contract period for the initial basic and each option year.

I16D14 52.216-9C14 CONTRACT LIMITATIONS (MULTIPLE NSNS) (APR 2001) DSCC

(ii) The 'CONTRACT MAXIMUM' for the entire solicitation quantity will be for the base contract period and each individual option period, which is the total of the individual maximum quantities or dollar estimates for all NSNs.
(iii) The 'CONTRACT MINIMUM' for the entire solicitation quantity will be for the base contract period and each individual option period, which is the total of the individual minimum quantities or dollar estimates for all NSNs. The contract minimum applies to the entire range of items solicited and does not guarantee that the Government will purchase any particular quantity or dollar amount of any NSN.

I16D20 52.216-9C20 ESTIMATED TOTAL QUANTITY (AUG 2001) DSCC

a. The estimated total quantity the Government expects to order during each contract year is as follows:

CLIN(s)	Quantity
0001	30
0002	165
0003	190

b. In the event this solicitation provides for a partial set-aside the estimated total quantity for the set-aside portion is as provided in the clause entitled 'Set-Aside Portion' set forth in Section I of the solicitation.

NOTE: It is anticipated that the quantities listed will remain constant for the additional option term indicated in Clause I17D01 (DSCC 52.217-9C13), I17D04 (DSCC 52.217-9C12), or I17D03 (DSCC 52.217-9C05).

I17D04 52.217-9C12 EXTENSION OF CONTRACT PERIOD (OCT 2003) DSCC

b. If the Government exercises this option for extension of the contract term, the contract as extended shall be deemed to include this option clause. However, the total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years.

d. This clause will be used in evaluation of offer.

A 1 year contract (base year plus option year(s) is desired.

OFFEROR MUST CHECK THE FOLLOWING BLOCKS FOR OPTION YEARS:

() (Vendor Fill-in) The Government's desired option is acceptable.
() (Vendor Fill-in) No option is acceptable.
() (Vendor Fill-in) option years are acceptable.

NOTE: Failure to accept option years as requested may result in rejection of offer.

L11D02 52.211-9C13 AVAILABILITY OF DRAWINGS (JAN 2003) DSCC

The primary source for drawings, which support DSCC solicitations, is the DSCC Bid set Interface (DBI) website. The website is available through the DSCC Internet Bid Board System (DIBBS). All drawings available on the DBI website must be viewed and/or downloaded from the website. Requests for hard copy or CD-ROM copies of drawings that are available on DBI will be returned unprocessed.

Request for drawings that are listed on the DBI, as 'Restricted, Available to Authorized Vendors only', must be ordered by clicking on the 'Order via CD-ROM'. An automated order form will appear with the Solicitation Number. Return by Date and NSN populating the first three fields of the form for your convenience. It is important that the 'Certification

Number and Certification Date' are completed on the form. Failure to provide complete information will cause delays in issuance of the requested drawing(s). All requests for restricted drawings will be provided on CD-ROM. Allow seven days for receipt of the CD. If you have any questions about your order after seven days call 614-692-1204.

To assist us in operating this website feature, we have established a vendor-interactive e-mail address at dbi-drawings(at)dsccl.dla.mil. If you are reading

solicitations and accessing available bid sets and discover a discrepancy between what is listed in the 'Item Description' of the solicitation and what is available in the bid set drawing list, we request that you send an e-mail message describing the discrepancy. You may advise us in instances such as, 'wrong revision level in the DBI', 'drawing(s) in the solicitation, but none in DBI', or 'additional drawings in the solicitation and not available in DBI'.

CAUTIONARY NOTE: It is your responsibility to make sure that you obtain and use the drawings and revision levels that are called out in the solicitation.

If you have any questions about the operation of the DBI website (drawing questions only), call 614-692-3207 or 614-692-1204.

FOR LONG TERM CONTRACTS, WITH MULTIPLE NSNS, THAT REQUIRE DRAWINGS.

To obtain the CD-ROM drawings contact the Long Term Contract Drawing Monitor via email: Leonard.gutter(at)dla.mil. Questions or comments may be directed to Leonard Gutter at 614-692-2306. Government Specification can be acquired through

the Acquisition Streamlining and Standardization Information System (ASSIST) at <http://assist.daps.dla.mil>.

The Government does not supply Commercial (non-government) Specification and Standards. It is the responsibility of the contractor to obtain these.

(c) The telephone number of receiving facsimile equipment is: A/C 614-692-4275

NOTE 1: When sending a facsimile proposal, the contractor should program the machine to include his telephone number as the distant station ID. This information is required to assist in documenting receipt of the order.

NOTE 2: Reject offers received via the DSCC Internet Bid Board System (DIBBS). This mode of transmission is not authorized for large purchase acquisition. If the DIBBS offer

is received outside the Bid Opening Room, the receiver will immediately hand deliver the offer to the Bid Opening Officer. The Bid Opening Officer will return ALL DIBBS offers (whether received in or outside the Bid Opening Room) to the contractor. The offer will be returned as an attachment to the letter of rejection. This letter advises that it is unfair and improper to consider the offer since it would have a potential competitive advantage over other offerors, e.g., there could be more time in which to prepare the offer. FAR 14.301(e)/FAR 15.402(k) stipulate that the solicitation must specify which electronic commerce method is permitted.

L52A01 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998) FAR

Instructions to offerors:

Describe the capability to initially ramp up (i.e., surge) and to sustain an increased pace of supplies to meet the surge requirements identified in Section B of this solicitation. The initial plan is merely a part of your proposal.

Address the following subfactors:

1) Explain the methodology for enabling visibility of supplier base resources as it relates to the S&S requirements on a continuing basis. Include any on-line access to suppliers' inventory and production information systems.

2) Identify the supplier base inventories, production capability, or any other means of S&S support that are available to meet S&S requirements. Based on this identification, describe your strategies for meeting the S&S requirements in the solicitation, and explain how these strategies will be applied to the S&S items in this solicitation.

3) Describe any agreements with suppliers that reflect access to the supplier base resources, including any commitments to hold rotating amounts of assets, time frames for delivering these assets; any commitments to provide access to production capabilities, and time frames for this access.

4) Describe any access to and plans for coordinating distribution (receiving, storing, packaging, and issuing) and transportation services needed to meet S&S requirements. Include any agreements with suppliers of these services, and the time frame for the services to be provided.

5) Identify the S&S items under this solicitation that may be difficult to provide for quick initial ramp-up and elevated demand levels for sustainment. State the reasons for the difficulties and describe a proposed solution (for example, obtaining and storing raw materials or component parts, obtaining production tooling needed to expand production) for overcoming the difficulties, etc.).

6) Clearly identify any significant investments (dollars) needed to develop S&S capability. The total cost of the investment shall be identified in CLIN 6002. For those S&S investments, explain why the investment is needed, what you propose purchasing, the basis for the investment cost, and the S&S capability to be gained. For investments proposed to effect S&S strategies, include an analysis of what S&S strategies were considered, and why the proposed strategies are the most cost-effective.

7) For items the contractor knows are readily available and accessible in sufficient quantities to meet the S&S requirements, a contractor-signed statement may be used in lieu of obtaining more extensive S&S assessment information. This statement shall contain the contractor's rationale for concluding that an S&S item is readily available, identification of the method of access to those items, identification of the delivery terms and the projected lead-times for the S&S items. The statement shall also be accompanied by a description of access to and plans for, coordinating distribution and transportation services for meeting S&S requirements.

L33A01 52.233-2 SERVICE OF PROTEST (AUG 1996) FAR

(a) Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the General Accounting Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from

CONTRACTING OFFICER: Mindy R Messerly
DSCC-LD
P.O. Box 3990
Columbus, OH 43218-3990

TELEPHONE: (614) 692-4874
[Contracting Officer designate the official or location where a protest may be served on the Contracting Officer.]

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

L52A02 52.252-5 AUTHORIZED DEVIATIONS IN PROVISIONS (APR 1984) FAR

(b) The use in this solicitation of any DoD FAR Supplement (DFARS) (48 CFR Chapter 2) provision with an authorized deviation is indicated by the addition of '(DEVIATION)' after the name of the regulation.

SECTION M

M11C01 52.211-9003 CONDITIONS FOR EVALUATION OF OFFERS OF GOVERNMENT SURPLUS MATERIAL (APR 2002) DLAD

M15D02 52.215-9C09 EVALUATION FACTORS FOR AWARD (OCT 2002) DSCC

(a) General Basis for Award: Award will be made to the offeror or offerors whose offer(s) conform to the solicitation

requirements and represents the best value to the Government. Unless either clause 52.216-9C38 or 52.216-9C08 are included, at time of solicitation the Government anticipates making a single award. The following evaluation factors will be considered in the evaluation of proposals received under this solicitation with their assigned ranking in descending order of importance:

- 2 - Price
- 1 - Past Performance
- 3 - Proposed Delivery
- 4 - Surge and Sustainment (See Provision 52.217-9C24)
- Other:

All factors other than price listed above are, when combined, approximately equal to price.

M15D04 52.215-9C19 WEIGHTED AVERAGE PRICE EVALUATION METHOD (SEP 2000) DSCC

By use of the following weights a weighted average price will be developed for each item using the formula stated in subparagraphs (1) through (3) below.

INCREMENT	WEIGHT
A	5%
B	65%
C	25%
D	5%
E	
F	

(1) The weighted average price (for a given item for a given year) will be arrived at as follows:

(Offered unit price) x (increment weight) = weighted unit price

(Sum of weighted unit prices) divided by (the sum of the weights) = weighted average price.

(2) (The weighted average price) x (the estimated annual requirement) = estimated annual cost for a given item for a given year.

(3) The sum of the estimated annual costs for a given item for

the base year plus any option periods = the total estimated cost for that item.

M17D03 52.217-9C24 SURGE AND SUSTAINMENT (S&S)
EVALUATION (JUL 2001) DSCC

Evaluation for Award:

The Government will evaluate the proposed S&S capability assessment based upon the contractor's ability to meet the stated S&S requirements and the thoroughness of the solutions provided to rectify any identified shortfalls (if applicable). Surge CLIN price(s) will be evaluated for reasonableness but will not be included in the overall comparative price evaluation.

The highest rating will be given those offerors who are able to demonstrate that they can meet the following criteria in response to those factors and subfactors described under Instructions to Offerors.

- 1) On-line access within short time frames and use of automated tools for analysis is preferred for enabling visibility of supplier base resources as it relates to the S&S requirements on a continuing basis, over less automated methodologies.
- 2) Detailed information on the identification of the supplier base inventories, production capability, or any other means of S&S support that are available to meet S&S requirements for each NSN or item grouping is preferred over general information.
- 3) Well-defined agreements with suppliers that reflect access to the supplier base resources, including any commitments to hold rotating amounts of assets, time frames for delivering these assets; are preferred over incomplete less defined agreements or plans to make these agreements.
- 4) Well-defined agreements and coordination plans for coordinating distribution (receiving, storing, packaging, and issuing) and transportation services needed to meet S&S requirements are preferred over incomplete coverage, and less defined agreements and coordination plans.
- 5) Comprehensive identification, sound rationale and cost-effective solutions for the S&S items under the solicitation that may be difficult to provide for quick initial ramp-up and elevated demand levels for sustainment difficulties, is preferred over less detailed information.

SECTION L**INSTRUCTIONS TO OFFERORS**

Proposals will be evaluated in terms of both price and other evaluation factors in accordance with the evaluation criteria contained in this solicitation. Offerors should thoroughly read and understand the terms and conditions contained in the solicitation. Failure to provide any information requested in the solicitation, may render the offeror's proposal technically unacceptable and preclude it from any further consideration for contract award. Offerors should ensure that the information contained in their proposal is factual, accurate and complete. If the Government accepts the offer, it will contractually bind the successful offeror to the terms and conditions of the solicitations.

In addition to price, the Government will evaluate other business/technical factors in accordance with the evaluation criteria contained in the solicitation. These factors are deemed essential in order to determine the offer that best meets the Government's needs.

1. PRICE

Offerors shall submit a pricing proposal for the item(s) identified in the RFP's supplies or services with the offeror's insertions of its proposed prices for each contract line item on which the offeror is making a proposal.

2. PAST PERFORMANCE**Automated Best Value System (ABVS)**

Each offeror will be assigned an ABVS score based upon its past performance.

Past Performance:

Past Performance information is maintained for performance under all procurements with the Defense Logistics Agency (DLA). ** Overall performance is evaluated as is performance in each Federal supply Class (FSC). This information is used to generate ABVS ratings which are based on the following indicators:

Delivery Delinquencies

- Number
- Severity
- Contractor Caused Terminations, Cancellations, and Withdrawals

For administrative purposes, the delivery rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the Contract Delivery

Date (CDD).

Quality Complaints

- Product Nonconformance/Laboratory Test Failures
- Packaging Nonconformances

For administrative purposes, the quality rating period excludes the most recent 30 days.

** The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM

software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the "BSM Supplier Information Resource Center" and the link is <http://www.dla.mil/j-6/bsm/sirc/>.

NOTE : The above 60 and 30 day offset periods are NOT grace periods.

ABVS rating does not determine an offeror's award eligibility, or technical acceptability, nor does it constitute a responsibility or non-responsibility determination.

By accessing the DSCC Internet Bid Board System (DIBBS), (<http://dibbs.dsccols.com/>), each offeror will be provided the opportunity to review their ABVS scores and negative historical performance data. For any questions or challenges to negative performance data, please forward requests/challenges to an ABVS Administrator at the below cited address, or telephone/fax an Administrator at one of the provided numbers:

When a discrepancy between contractor data and Government data occurs, the Government will make every effort to resolve the discrepancy expeditiously. However, the Government may make an award decision despite the existence of an unresolved challenge. The Government is the final authority for resolution of disputed data and its use in the source selection process.

Other Past Performance Information:

The offeror may provide past performance information, as follows, for consideration along with the offeror's ABVS score, in evaluating past performance:

- (a) A list of contracts, commercial or government, performed within the past two years, limited to three (3) government and three (3) commercial contracts for the same or similar items. The offeror shall provide or include a point of contact (POC), address, telephone number, an average dollar amount of the contract per annum, the period of performance, and a sample listing of the items provided for under the commercial contracts. For any government contracts, provide the government agency, a (POC), telephone number, appropriate contract number, estimated dollar value of the contract, period of performance, and a sample listing of the items provided. The Government reserves the right to limit the number of references it decides to contact.
- (b) A listing of any "problems" or discrepancies (includes shortages, overages, damages, defects, or misshipments, etc.) experienced within the past year for the contracts or customers reported in reference to paragraph 1a. Include a brief description of how these problems were addressed and remedied.

The offeror shall describe the extent of its past performance in the past two years for the contracts reported in response to paragraph (a) above for:

- Subcontracting with small, small disadvantaged, women-owned small business concerns
- Subcontracting with JWOD entities
- Participation in the DLA Mentoring Business Agreements Program

3. DELIVERY

See Section F of the solicitation for time, place and method of delivery or performance.

4. SURGE AND SUSTAINMENT

Information may be required from the offeror as specified in provision L17D04, Surge and Sustainment (S&S) Evaluation Factor.

5. SOCIOECONOMIC CONSIDERATIONS:

In addition to the socioeconomic proposal required under K15C01, DLAD 52.215-9002, the offeror may propose participation by Historically Black Colleges and Minority Institutions.

6. MENTORING BUSINESS AGREEMENTS PROGRAM -

The offeror shall describe, as part of its proposal, its current or proposed participation in the DLA Mentoring Business Agreements (MBA) Program. Participants:

Cite your criteria for selecting a firm with whom to mentor. In addition provide the following information with all submissions:

- a. Name, address, and office/plant location for offeror and potential small business concern participants.
- b. Point of contact, job title, and phone number of all personnel involved in the development and oversight of any agreement from both parties. The Government reserves the right to limit the number of references it decides to contact.
- c. The number of people employed by the small business concern.

- d. Plans which identify new business ventures rather than expansion of existing agreements are preferred.
- e. The mentoring plan shall specifically identify the areas of development assistance (i.e. management/technical) that will be provided. Provide a discussion of the areas chosen for mentoring.
- f. Describe the scope of the plan (i.e. whether the plan will be specifically related to the requirements contained in this solicitation or will the plan cover other government and commercial contracts).
- g. The offeror shall identify and describe the management control techniques that will be used to ensure compliance with any MBA requirement in any contract resulting from this solicitation. This should include the record keeping communication techniques and the methods to be used to control track performance.

Program Objectives:

Provide a chart indicating the milestones for program implementation.

Discuss and describe the measurements or yardsticks that will be utilized to determine if program objectives and goals have been met. Projections of successful program measurements should result in:

- (i) an increase in the dollar value of subcontracts awarded to small business and small disadvantaged business concerns under DOD contracts;
- (ii) an improvement in the level of small business/small disadvantage business participation in DOD, other Federal agencies, and commercial contracting opportunities

7. JWOD (Javits-Wagner-O-Day Entity Proposal) PROGRAM FACTORS

The offeror may provide a proposal as required under K15C02, DLAD 52.215-9004.

SECTION M

EVALUATION FACTOR FOR AWARD

General Basis for Award:

() **Multiple Awards:** The Government intends to make an award to the offeror that represents the best value to the Government. Additional awards for the same item or items may be made to offeror(s) representing the next best value(s). Award(s) will be made in the combination that will assure the Government needs in terms of delivery, quality, and price will be met during the life of the contract(s). However, the government will award no more than ____ contracts per NSN or CLIN groups as a result of the solicitation.

(X) **Single or Split Awards:** The award of each individual item of supply specified in this solicitation will be made to the responsible offeror whose offeror conforms with the solicitation and is most advantageous to the Government. In making the best value determination, the Government will make a comparative assessment of the offerors.

All proposals will be evaluated to determine that the offered price(s) reflects a technical understanding of the requirement and those considered unrealistic may be rejected.

Evaluation Factors:

The Government will base the determination of best value on a comparative assessment of the offeror's prices, past performance, and other evaluation factors as identified in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors when combined are:

- () approximately equal to price; or
- () significantly less important than price. As the evaluated price becomes more equal, relative importance of all other evaluation factors become more significant.
- (x) significantly more important than price. As other evaluation factors become more equal, the evaluated price becomes more important.

The final award decision may be made through a trade-off between price and the non-price factors.

The following factors, ranked in descending order of importance, will be considered in the evaluation of proposals received under this solicitation:

1. Price
2. Past Performance
3. Proposed Delivery
4. Surge and Sustainment
5. Socioeconomic Support
6. DLA Mentoring Business Program
7. JWOD Program

1. PRICE:

The offered price will be evaluated as adjusted by price related evaluation factors identified in this solicitation and, if indicated, the following:

- (X) **M15D04** – Weighted Average Price Evaluation Method (DSCC 52.215-9C19) (SEP 2000)

M16D01 – Evaluation of Offers for Indefinite Delivery Type Solicitations (DSCC 52.216-9C07) (MAY 2003)

Other

The Government will also evaluate the reasonableness of offered prices.

2. PAST PERFORMANCE EVALUATION FACTORS:

Past performance includes but is not limited to, the offeror's record of conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior. The Government will use the past performance evaluation factors marked below:

- Automated Best Value System (ABVS) (as defined below)
- Socioeconomic Support
- DLA Mentoring Business Program
- JWOD

ABVS

The government will consider the offeror's ABVS score** and any other information provided relating to the offeror's performance (see Section L). The Government will review and evaluate the offerors reputation for conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior.

The Government may solicit information from an offeror's customers and business associates; federal, state, and local government agencies; and from other persons and organizations as deemed necessary. The Government reserves the right to limit the number of references it decides to query and to contact references other than those provided by the offeror.

An offeror's ABVS rating is an indicator of performance risk and will be evaluated first on the basis of past performance in the same Federal Supply Class (FSC) as the supplies being solicited. The Contracting Officer may consider the volume of business on which the performance score is based as a measure of confidence in the FSC score. A vendor's overall score may also be evaluated when a satisfactory measure of confidence cannot be obtained from the FSC score or if a vendor has no FSC score. The Contracting Officer may also take into consideration any other available and relevant past performance data. An offeror with no performance history in any FSC procured by DLA will be identified as a new offeror and will not be scored by the ABVS on performance. However, any other available and relevant past performance data may be considered in rendering an award decision. Regardless, the status of being a new offeror will not be grounds for disqualification for an award. New offerors may be considered more favorably than scored offerors with a poor performance record. Also, the desirability of expanding the supplier base and possible competition enhancement in future procurements will be considered in the source selection decision when new offerors are present.

** The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

**Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Supplier Information Center at <http://www.dla.mil/j-6/bsm/sirc/>. Additional information about ABVS and how to obtain your ABVS score can be found at <http://www.dscc.dla.mil/programs/abvm/>.
