SUPPLEMENTAL INSTRUCTIONS:

## SECTION D

**NOTICE TO CONTRACTORS:**

Effective October 1, 2001, European countries are restricting shipments of material in or on Non-Manufactured Wood Packaging Material (NMWPM) (i.e., pallets, boxes, crates, etc.) that do not meet the following requirements adopted by the Commission of the European Communities (CEC): All wooden pallets and wood containers produced entirely or in part of non-manufactured softwood species shall be constructed from Heat Treated (HT to 56 degrees Centigrade for 30 minutes) coniferous material and certified accordingly by an accredited agency recognized by the American Lumber Standard Committee, Incorporated (ALSC) in accordance with Non-manufactured Wood Packing Policy and Non-manufactured Wood Packing Enforcement Regulations (see URL: <http://www.alsc.org>).

All contracts and orders where NMWPM may be used to ship material to U.S. forces and Foreign Military Sales customers in Europe are subject to these requirements. This includes all shipments moving through the Container consolidation Points at the Defense Distribution Depots in Susquehanna, PA and San Joaquin, CA, the Container Freight Station in Norfolk, VA, **Army Prepositioned Ship (APS 3) Upload Site in Charleston, SC (DODAAC: W81X89 and W81YUK), and the Marine Corps Blount Island Command in Jacksonville, FL 32226-3404.** and the aerial ports of embarkation at Dover, DE; Travis Air Force Base, CA; Naval Air Station, Norfolk, VA; and Charleston Air Force Base, SC to the affected countries.

**PALLETIZATION NO. DC1636P001, REV. E, DATED 03029****1. SCOPE.**

This sheet covers the requirements for palletization of DSCC items of supply for handling, shipment, and storage.

**2. REFERENCED DOCUMENTS.**

The following documents, of the issue in effect on the date of solicitation, form a part of this palletization sheet to the extent specified herein:

**STANDARDS (COMMERCIAL)**

ASME-MH1 American Society of Mechanical Engineers  
(ASME) Pallets, Slip Sheets, and Other Bases For Unit Loads

**STANDARDS (MILITARY)**

MIL-HDBK-774 Palletized Unit Load (use as a reference only)

(Copies of listed federal and military specifications, standards, and associated documents listed in the Department of Defense Index of Specifications and Standards [DODISS] should be obtained from DoD Single Stock Point, Commanding Officer, Naval Publications and Forms Center, 5801 Tabor Ave., Philadelphia, PA 19120-5099. Also available on ASSIST at: <http://assist2.daps.dia.mil/quicksearch/>. The ASME-MH1 may be purchased at the ASME web site at: <http://store.asme.org/> [see "Pallets" link, then select MH1] or Phone: 1-800-843-2763 or 1-973-882-1167 or Fax: 1-973-882-1717.]

**3. REQUIREMENTS.**

Shipments of identical items packed in four or more shipping containers exceeding a total of 48 cubic feet per destination shall be palletized except when the shipping containers are required to be skidded (see 3C) or a quantity of four shipping containers per pallet exceeds the size or weight limitations for palletized loads (see 3A and 3B, as applicable). Shipments packaged in accordance with ASTM D3951 shall be palletized in accordance with 3A or 3B. Shipments packed Level A or Level B shall be blocked in accordance with 3B.

A. Material may be palletized on commercial pallets provided the load meets the following requirements:

- (1) The load does not exceed 52 inches in length or width, 54 inches in height, and 3000 pounds.

- (2) The load is prepared and secured in a manner that will ensure carrier acceptance and permit safe re-handling at destination.

B. Palletization shall comply with ASME-MH1. MIL-HDBK-774 and appendices will be used as a reference only.

- (1) Loads shall be stable and should not exceed the size and overseas limitations of MIL-HDBK-774.

- (2) Glued loads shall not be used.

- (3) For Level A packing, pallets shall comply with ASME-MH1, Part No. MH1/9-02SW4048. This part number shall be used for all shipments when the total weight is less than 1500 lbs evenly distributed.

- (4) For Level B packing, pallets shall comply with ASME-MH1, Part No. MH1/9-05SW4048. This part number shall be used for all shipments when the total weight is greater than 1500 lbs, but less than 3000 lbs evenly distributed.

- (5) Residual quantities of less than the quantity required for one course of the load need not be palletized.

C. Palletization is not required for shipping containers that are constructed on skids. Shipping containers, except drums, exceeding 70 pounds gross weight or 40 inches in length, shall be constructed with skids. Skids shall be a minimum of 3 x 4 inch (nominal) lumber and shall be securely attached to permit multiple re-handling at destination. Drums shall be palletized.

D. The following commercial heat treatment process has been approved by the American Lumber Standards Committee (ALSC) and is required for all NMWPM entering a European country: "All wooden pallets and wood containers produced of entirely or in part of non-manufactured softwood species shall be constructed from Heat Treated (HT to 56 degrees Centigrade for 30 minutes) coniferous material and certified by an accredited agency recognized by the American Lumber Standard Committee, Incorporated (ALSC) in accordance with Non-manufactured Wood Packing Policy and Non-manufactured Wood Packing Enforcement Regulations (see URL: [www.alsc.org](http://www.alsc.org)). All wooden pallets and containers produced entirely of non-manufactured hardwood species shall be identified by a permanent marking of "NC-US," 1.25 inches or greater in height, accompanied by the CAGE code of the pallet manufacturer and the month and year of the contract. On pallets, the marking shall be applied to the stringer or on diagonally opposite sides and ends of the palletized pallet and be contrasting and clearly visible. On containers, the marking shall be applied on a side other than the top or bottom, contrasting and clearly visible. Failure to comply with all the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry.

## SECTION D

## D11C03 52.211-9010 MILITARY SHIPPING LABEL (MSL) REQUIREMENTS - MIL-STD-129P (MAR 2004) DLAD

(a) MIL-STD-129, Revision P, dated December 15, 2002, establishes the requirement for Contractors that ship packaged materiel to the Government to provide both linear and two-dimensional (2-D) bar coding on military shipping labels (MSLs) (but see exceptions in paragraph (d)). The new requirements apply to all shipments, which includes either depot (DLA-Direct) or DVD (Customer-Direct) shipments. Linear (Code 3 of 9 or Code 39) bar codes continue to be required on interior packages (unit and intermediate packages)

for the National Stock Number (NSN) and, when applicable, the serial number; and on shipping containers and palletized unit loads for the NSN, Contractor and Government Entity (CAGE) Code, contract number and, when applicable, the serial number.

The new requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P.

(b) The new MSL replaces former DD Form 1387 and is illustrated in Figures 2a and 2b of MIL-STD-129P. The MSL requires Code 3 of 9 or Code 39 linear bar codes for the Transportation Control Number (TCN), piece number and DoDAAC for the ultimate consignee or mark-for address. The 2-D bar code on the MSL must contain the document (requisition) number, NSN, Routing Identifier Code (RIC), Unit of Issue, Quantity, Condition Code, and Unit Price, which are ordinarily included on the DD Form 250 or the DD Form 1348-1A. MIL-STD-129P provides numerous illustrations of what must be bar-coded and the recommended placement of the bar code. When the contract omits any data element required to be bar-coded, the field should be zero-filled.

(c) MIL-STD-129P, sources for conforming labels, and related information are available on the DLA Packaging Web Site at URL: <http://www.dscclia.mil/offices/packaging/specstdslist.html#STDs>.

(d) This clause does not apply to -

- (1) Subsistence items procured through full-line food distributors (prime vendors), 'market ready' type items such as fresh milk, ice cream, and other fresh dairy products, fresh bread and other fresh bakery products, and all fresh fruits and vegetables, shipped within the Continental United States (CONUS) to customers within CONUS;
- (2) Any item for which ownership remains with the vendor until the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the vendor into the designated location or issuance from the designated location by vendor personnel (i.e., the vendor is required to stock bins at the customer location and/or issue parts from a vendor controlled parts room); or
- (3) Bulk purchases of petroleum, oil and lubricant products delivered by (1) pipeline; or (2) tank car, tanker and tank trailer for which the container has (i) a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (ii) a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (iii) a water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas.

NOTES: In bar code element 1 above, the Document Number consists of a 14-character (15 characters when a suffix is included) alphanumeric code. It may be listed on a contract/award as the Requisition Number, Transportation Control Number (TCN), etc.

In bar code element 2 above, the NSN will appear as a 13-digit code without the dashes.

In bar code element 3 above:

The RIC for each procuring activity is as follows:

S9C - Defense Supply Center Columbus - Construction  
S9E - Defense Supply Center Columbus - Electronics  
S9F - Defense Energy Support Center  
S9G - Defense Supply Center Richmond  
S9I - Defense Supply Center Philadelphia - General and Industrial  
S9T - Defense Supply Center Philadelphia - Clothing and Textiles  
S9M - Defense Supply Center Philadelphia - Medical Materiel  
S9P - Defense Supply Center Philadelphia - Perishable Subsistence  
S9S - Defense Supply Center Philadelphia - Semi-perishable Subsistence

The appropriate unit of issue (U/I) will appear as a two digit alpha character.

The quantity will appear as a five-position number, including zero fillers on the left.

The above will be followed by an 'A' and eight zeros, (i.e. 'A00000000')

NO SPACES SHALL SEPARATE THE INDIVIDUAL DATA ELEMENTS WITHIN EACH LINE.

If the S&S proposal shows no S&S investments are needed, the contractor shall have full capability to provide the S&S requirements identified in Section B of this solicitation within the standard contract production lead-time unless a shorter time period is agreed to by the contractor and the Government.

After award, the contractor may be required to submit a test plan for the S&S requirements. After approval by the Contracting Officer of the S&S test plan, the contractor may be required to conduct S&S tests, or allow the government to perform S&S tests to validate the S&S capability. These tests may be in the form of paper exercises, simulations, command post exercises, or participation in live exercises (to include the Joint Chiefs of Staff (JCS) and Commander in Chiefs (CINCPAC) exercises), or any other methodology that can validate the S&S capability.

Shipping instructions shall be provided with individual delivery orders. Destinations include various Department of Defense using activities (DSCC customers) and may include DSCC stock points.

SECTION H

H15D02	52.215-9C20	ORDER TRANSMISSION (OCT 2002)	DSCC
--------	-------------	-------------------------------	------

Offerors must check one of the following alternatives for paperless order transmission:  
 ( ) (Vendor Fill-in) Electronic Data Interchange (EDI) transmissions in accordance with ANSI X12 Standards through a registered Value Added Network (VAN).

( ) (Vendor Fill-in) Electronic Mail (email) award notifications containing Web links to electronic copies of the DD Form 1155, Order for Supplies or Services (orders are stored in Portable Document Format (PDF) and accessing them requires a free Adobe Acrobat Reader plug-in).

H17D03	52.217-9C23	SURGE AND SUSTAINMENT (S&S) REQUIREMENTS (MAR 2004)	DSCC
--------	-------------	---	------

Surge and sustainment (S&S) capability is defined as the ability of the contractor to meet increased quantity/accelerated delivery requirements, using supplier base capabilities, in support of a broad spectrum of possible contingencies. The S&S capability refers to an overall capability. This ability includes both a capability to ramp-up quickly to meet early requirements (i.e., surge), as well as to sustain an increased pace throughout the contingency(s) (i.e., sustainment). The spectrum of possible contingencies includes major theatre warfare and smaller-scale contingency operations. The increased quantity/accelerated delivery requirements are those above and beyond normal peacetime requirements.

CLIN 6000 identifies the S&S requirements. The requirements should be priced based on delivering the stated quantity within the stated delivery timeframes. The Government may issue an order or series of orders equaling the surge quantities. Orders for the S&S requirements will be placed by issuance of written or electronic orders. S&S orders will not count towards the contract maximum.

As part of S&S, the contractor is required to conduct a capability assessment which demonstrates the contractor's strategy and plans to meet the S&S requirement.

( ) See provision L17D04, DSCC 52.217-9C26. The contractor's submission to this provision constitutes the capability assessment.

(X) At the contracting officer's direction, the contractor will be required to submit the capability assessment after award.

If the contractor identifies that S&S investments are needed in order to provide the S&S requirement, then the contractor must identify the costs in CLIN 6002. The contractor must provide the reasons the investments are needed for these items, a detailed explanation of what will be purchased, the S&S capability to be gained, the basis for the estimated costs of these investments, an analysis of what surge strategies were examined and why the proposed strategy is the most cost-effective. See I17C03, DLAD 52.217-9006, for additional information on allowable surge investment costs.

If the S&S proposal shows S&S investments are needed, (as documented and priced in CLIN 6002), the contractor shall have full capability of providing the S&S requirements identified in Section B of the solicitation, within the standard contract production lead-time unless a shorter time period is agreed to by the contractor and the Government after receipt of investment funds/material from the Government.

The contractor shall maintain the S&S capability throughout the life of the contract. Any significant changes in the contractor's supplier base capabilities that would impact the contractor's S&S capability, shall be reported in writing to the Contracting Officer immediately after the contractor becomes aware of the change.

The Government may refine, reassess, or update its S&S requirements during the life of the contract, or the contractor's supplier base capabilities may change during the contract period. Either of these conditions may necessitate the contractor's reassessment of its supplier base capabilities and development of new/changed S&S strategies. Changes in S&S requirements will be made through bilateral contract modifications. Changes in contractor S&S capabilities will be made through contractor submission of a revised S&S capability assessment and revised test plan (if applicable) that addresses the changes.

The contracting officer shall evaluate both the revised S&S capability assessment and the revised S&S test plan (if applicable) for acceptability. The government reserves the right to require additional assessments/plans if the initial or any subsequent submissions are not approved.

If S&S investments are needed as a result of changed circumstances, the revised S&S capability assessment must provide the reason(s) investments are needed for these items, a detailed explanation of what will be purchased, the S&S capability to be gained, the basis for the estimated costs of these investments, an analysis of what surge strategies were examined and why the proposed strategy(ies) is(are) the most cost-effective.

The above language does not limit the government's right, at any time after award, to perform inspections or test the contractor's S&S capability. In the event a contingency occurs before the contractor develops full S&S capability to address changed circumstances, or the contingency requirements exceed those defined in Section B, the contractor shall support S&S requirements to the maximum extent possible.

If the contractor fails to perform in accordance with the requirements set forth, a contingency(s) arises before the contractor has established full S&S capability to address changed circumstances, or other circumstances create a need, the government has the right to take any action necessary to obtain S&S requirements from other sources (including sources in the contractor's supplier base). This language does not relieve the contractor from responsibility for providing peacetime level quantities during the contingency (i.e.: non-surge requirements).

H23B01	252.223-7001	HAZARD WARNING LABELS (DEC 1991)	DFARS
--------	--------------	----------------------------------	-------

(c) The Offeror shall list which hazardous material listed in the Hazardous Material Identification and Material Safety Data clause of this contract will be labelled in accordance with one of the Acts in paragraphs (b)(1) through (5) of this clause instead of the Hazard Communication Standard. Any hazardous material not listed will be interpreted to mean that a label is required in accordance with the Hazard Communication Standard.

I16A16 52.216-18 ORDERING (OCT 1995) FAR

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued --

FROM: Date of Award

THROUGH: One Year

after date of award.  
The effective date of the contract will be stated in the award.

I16D06 52.216-9C06 CONTRACT LIMITATIONS (MAR 1998) DSCC

[X] (a) For the purposes of determining the obligations of the parties hereto with respect to the quantities to be furnished/ordered during the contract period, the following minimum and maximum quantities or dollar figures are established:

- (1) Minimum Quantity or Dollar Figure: 1,500
- (2) Maximum Quantity or Dollar Figure: 23,832

The Government is obligated to order only the minimum quantity or dollar figure stated above.

[ ] (b) Partial SET-ASIDES - If this solicitation provides for a partial Small Business set-aside and the resulting award is made to a contractor receiving the set-aside and non set-aside portion, the quantities specified in paragraph (a) will be doubled.

[ ] (c) Multiple NSNs - The CONTRACT MINIMUM will be , which is the total of the individual quantities or dollar estimates for all NSNs listed below. The totals listed below are estimates only and will be used to determine the minimum quantity or dollar value of the contract in the event of split awards. If there are split awards, the contract minimum will become the total of the estimates below for the NSNs awarded. The resulting contract minimum applies to the entire range of items awarded and does not guarantee that the Government will purchase any particular

quantity or dollar amount of any NSN awarded. The CONTRACT MAXIMUM will be

	Minimum Quantity
	or
NSN	Dollar Value

CHECK APPLICABLE BLOCK:

- ( ) Contract period as defined in this clause means the extended contract shall be inclusive of the option period.
- ( ) Contract period as defined in this clause means a separate contract period for the initial basic and each option year.

I16D07 52.216-9C08 CONTRACT QUANTITY LIMITATIONS (MULTIPLE AWARDS) (SEP 1999) DSCC

a. The Government anticipates making multiple awards as a result of this solicitation. If multiple awards are made, the contract minimum for each award will be a proportion of the overall minimum cited below. For example, if two awards are made the Government is obligated to purchase half of the minimum from each awardee. Regardless of the number of awards made under this solicitation, the Government may order, and each awardee is obligated to deliver, up to the maximum cited below:

1. The Government is obligated to order a minimum of 1,500 during the contract period.
  2. The Contractor(s) agree(s) to deliver additional supplies up to a maximum of 23,832 during the contract period.
- b. It is agreed and understood that the Government is under no obligation to order any supplies in excess of the minimum specified in subparagraph 1 above. Furthermore, the maximum specified in subparagraph 2 above shall not be construed as obligating the Government to purchase any amount in excess of the minimum.

I16D20 52.216-9C20 ESTIMATED TOTAL QUANTITY (AUG 2001) DSCC

a. The estimated total quantity the Government expects to order during each contract year is as follows:

CLIN(s)	Quantity
Zone 1	11,916
Zone 2	11,916

b. In the event this solicitation provides for a partial

I16A17 52.216-19 ORDER LIMITATIONS (OCT 1995) FAR

(a) Minimum Order. When the Government requires supplies or services covered by this contract in an amount of less than 1,500 DVD or 1,500 Stock, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum Order. The Contractor is not obligated to honor -

- (1) Any order for a single item in excess of 23,832 DVD or 23,832 Stock

- (2) Any order for a combination of items in excess of 23,832 , or

(3) A series of orders from the same ordering office within 90 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(d) Notwithstanding paragraphs (b) and (c) above, the contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 20 days after issuance, with written notice stating the contractor's intent not to ship the item (or items) called for and the reasons.

I16A24 52.216-22 INDEFINITE QUANTITY (OCT 1995) FAR

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after one year from the expiration date of this contract or final scheduled delivery date under any delivery order placed hereunder, whichever is later.

I16D02 52.216-9C02 PRICING OF DELIVERY ORDERS (JUN 2003) DSCC

(a) In pricing delivery orders requiring delivery of one NSN to multiple destinations, the price for each destination will be based on:

- [X] (1) The quantity range price based on the total quantity of the NSN being procured under each delivery order regardless of destination.
- [ ] (2) The quantity being shipped to each destination.

(b) If this solicitation/contract contains provision for placement of orders through POPS (Paperless Ordering Placement System), unit prices for those orders will be based on:

- [ ] (1) The total quantity of all requirements for each NSN issued via POPS in a single day, regardless of the number of individual orders.
- [ ] (2) The quantity of each individual order.

(c) If this solicitation provides for partial set-aside and the set-aside portion is awarded to the same contractor receiving the award on the non-set-aside portion, the pricing of delivery orders will be accordance with paragraph (a) above.

(d) The minimum quantity to be ordered, per destination, will be the minimum ordering range quantity if specified in section B hereof, for each item.

I16D03 52.216-9C03 CONTRACT PERIOD (MAR 1981) DSCC

(a) The contract period will be for one year beginning

- [X] on date of award;
- [ ] on a date to be specified not later than days

set-aside the estimated total quantity for the set-aside portion is as provided in the clause entitled 'Set-Aside Portion' set forth in Section I of the solicitation.

NOTE: It is anticipated that the quantities listed will remain constant for the additional option term indicated in Clause I17D01 (DSCC 52.217-9C13), I17D04 (DSCC 52.217-9C12), or I17D03 (DSCC 52.217-9C05).

I17C03 52.217-9006 LIMITATIONS ON SURGE AND SUSTAINMENT (S&S) INVESTMENTS (JUL 1999) DLAD

The contractor shall limit investments in surge and sustainment (S&S) materials or other S&S capabilities paid for through DLA's industrial preparedness funds in the following ways:

- (a) These investments can only be made to meet S&S requirements in support of major theatre warfare or smaller scale contingencies. They cannot be made to meet spikes in peacetime demand, nor to meet peacetime level quantities supplied during a contingency.
- (b) Investments shall not be made when substitute items or alternate manufacturing processes are available.
- (c) Investments must be the most cost-effective means of ensuring S&S capability.
- (d) Investments shall be made only for raw materials and partially finished parts needed to provide long lead-time items in shorter time frames. Investments in finished parts or in support of items with short lead-times cannot be made.
- (e) Only when the level of DLA and MILSVC (when MILSVC customer base is limited) assets related to the specific customer base served under the contract, and commercial inventories and production capacities in the contractor's supplier base are insufficient to meet both peacetime and S&S requirements, should S&S investments in materials be made.
- (f) Investments shall not be made for MILSVC managed items.
- (g) S&S investments made shall not be used as a safety stock (i.e., to meet peacetime spikes in demand).
- (h) The contractor shall not access S&S investments for any purpose other than to support the contingencies indicated in paragraph a, unless such access has been authorized by the Contracting Officer in writing. Offerors/contractors shall describe any desired access to the S&S investments and consideration offered to the government for this access in their S&S proposals/S&S capability reports. However, written approval from the contracting officer must be provided prior to implementing any proposed access.

I17D04 52.217-9C12 EXTENSION OF CONTRACT PERIOD (OCT 2003) DSCC

b. If the Government exercises this option for extension of the contract term, the contract as extended shall be deemed to include this option clause. However, the total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years.

d. This clause will be used in evaluation of offer.

A 5 year contract (base year plus option year(s) is desired.

OFFEROR MUST CHECK THE FOLLOWING BLOCKS FOR OPTION YEARS:

- ( ) (Vendor Fill-in) The Government's desired option is acceptable.
- ( ) (Vendor Fill-in) No option is acceptable.
- ( ) (Vendor Fill-in) option years are acceptable.

NOTE: Failure to accept option years as requested may result in rejection of offer.

L11D02 52.211-9C13 AVAILABILITY OF DRAWINGS (JAN 2003) DSCC

The primary source for drawings, which support DSCC solicitations, is the DSCC Bid set Interface (DBI) website. The website is available through the DSCC Internet Bid Board System (DIBBS). All drawings available on the DBI website must be viewed and/or downloaded from the website. Requests for hard copy or CD-ROM copies of drawings that are available on DBI will be returned unprocessed.

Request for drawings that are listed on the DBI, as 'Restricted, Available to Authorized Vendors only', must be ordered by clicking on the 'Order via CD-ROM'. An automated order form will appear with the Solicitation Number, Return by Date and NSN populating the first three fields of the form for your convenience. It is important that the 'Certification

Number and Certification Date' are completed on the form. Failure to provide complete information will cause delays in issuance of the requested drawing(s). All requests for restricted drawings will be provided on CD-ROM. Allow seven days for receipt of the CD. If you have any questions about your order after seven days call 614-692-1204.

To assist us in operating this website feature, we have

established a vendor-interactive e-mail address at dbi-drawings(at)dsccl.dla.mil. If you are reading solicitations and accessing available bid sets and discover a discrepancy between what is listed in the 'Item Description' of the solicitation and what is available in the bid set drawing list, we request that you send an e-mail message describing the discrepancy. You may advise us in instances such as, 'wrong revision level in the DBI', 'drawing(s) in the solicitation, but none in DBI', or 'additional drawings in the solicitation and not available in DBI'.

CAUTIONARY NOTE: It is your responsibility to make sure that you obtain and use the drawings and revision levels that are called out in the solicitation.

If you have any questions about the operation of the DBI website (drawing questions only), call 614-692-3207 or 614-692-1204.

FOR LONG TERM CONTRACTS, WITH MULTIPLE NSNS, THAT REQUIRE DRAWINGS.

To obtain the CD-ROM drawings contact the Long Term Contract Drawing Monitor via email: Leonard.gutter(at)dla.mil. Questions or comments may be directed to Leonard Gutter at 614-692-2306. Government Specification can be acquired through

the Acquisition Streamlining and Standardization Information System (ASSIST) at http://assist.daps.dla.mil .

The Government does not supply Commercial (non-government) Specification and Standards. It is the responsibility of the contractor to obtain these.

L17D04 52.217-9C26 SURGE AND SUSTAINMENT (S&S) EVALUATION FACTOR (JUL 2001) DSCC

Instructions to offerors:

Describe the capability to initially ramp up (i.e., surge) and to sustain an increased pace of supplies to meet the surge requirements identified in Section B of this solicitation. The initial plan is merely a part of your proposal.

Address the following subfactors:

1) Explain the methodology for enabling visibility of supplier base resources as it relates to the S&S requirements on a continuing basis. Include any on-line access to suppliers' inventory and production information systems.

2) Identify the supplier base inventories, production capability, or any other means of S&S support that are available to meet S&S requirements. Based on this identification, describe your strategies for meeting the S&S

requirements in the solicitation, and explain how these strategies will be applied to the S&S items in this solicitation.

3) Describe any agreements with suppliers that reflect access to the supplier base resources, including any commitments to hold rotating amounts of assets, time frames for delivering these assets; any commitments to provide access to production capabilities, and time frames for this access.

4) Describe any access to and plans for coordinating distribution (receiving, storing, packaging, and issuing) and transportation services needed to meet S&S requirements. Include any agreements with suppliers of these services, and the time frame for the services to be provided.

5) Identify the S&S items under this solicitation that may be difficult to provide for quick initial ramp-up and elevated demand levels for sustainment. State the reasons for the difficulties and describe a proposed solution (for example, obtaining and storing raw materials or component parts, obtaining production tooling needed to expand production) for overcoming the difficulties, etc.).

6) Clearly identify any significant investments (dollars) needed to develop S&S capability. The total cost of the investment shall be identified in CLIN 6002. For those S&S investments, explain why the investment is needed, what you propose purchasing, the basis for the investment cost, and the S&S capability to be gained. For investments proposed to effect S&S strategies, include an analysis of what S&S strategies were considered, and why the proposed strategies are the most cost-effective.

7) For items the contractor knows are readily available and accessible in sufficient quantities to meet the S&S requirements, a contractor-signed statement may be used in lieu of obtaining more extensive S&S assessment information. This statement shall contain the contractor's rationale for concluding that an S&S item is readily available, identification of the method of access to those items, identification of the delivery terms and the projected lead-times for the S&S items. The statement shall also be accompanied by a description of access to and plans for, coordinating distribution and transportation services for meeting S&S requirements.

M17D03 52.217-9C24 SURGE AND SUSTAINMENT (S&S) EVALUATION (JUL 2001) DSCC

## Evaluation for Award:

The Government will evaluate the proposed S&S capability assessment based upon the contractor's ability to meet the stated S&S requirements and the thoroughness of the solutions provided to rectify any identified shortfalls (if applicable). Surge CLIN price(s) will be evaluated for reasonableness but will not be included in the overall comparative price evaluation.

The highest rating will be given those offerors who are able to demonstrate that they can meet the following criteria in response to those factors and subfactors described under Instructions to Offerors.

1) On-line access within short time frames and use of automated tools for analysis is preferred for enabling visibility of supplier base resources as it relates to the S&S requirements on a continuing basis, over less automated methodologies.

2) Detailed information on the identification of the supplier base inventories, production capability, or any other means of S&S support that are available to meet S&S requirements for each NSN or item grouping is preferred over general information.

3) Well-defined agreements with suppliers that reflect access to the supplier base resources, including any commitments to hold rotating amounts of assets, time frames for delivering these assets; are preferred over incomplete less defined agreements or plans to make these agreements.

4) Well-defined agreements and coordination plans for coordinating distribution (receiving, storing, packaging, and issuing) and transportation services needed to meet S&S requirements are preferred over incomplete coverage, and less defined agreements and coordination plans.

5) Comprehensive identification, sound rationale and cost-effective solutions for the S&S items under the solicitation that may be difficult to provide for quick initial ramp-up and elevated demand levels for sustainment difficulties, is preferred over less detailed information.

**SECTION L  
INSTRUCTIONS TO OFFERORS**

Proposals will be evaluated in terms of both price and other evaluation factors in accordance with the evaluation criteria contained in this solicitation. Offerors should thoroughly read and understand the terms and conditions contained in the solicitation. Failure to provide any information requested in the solicitation, may render the offeror's proposal technically unacceptable and preclude it from any further consideration for contract award. Offerors should ensure that the information contained in their proposal is factual, accurate and complete. If the Government accepts the offer, it will contractually bind the successful offeror to the terms and conditions of the solicitations.

In addition to price, the Government will evaluate other business/technical factors in accordance with the evaluation criteria contained in the solicitation. These factors are deemed essential in order to determine the offer that best meets the Government's needs.

**1. PRICE**

Offerors shall submit a pricing proposal for the item(s) identified in the RFP's supplies or services with the offeror's insertions of its proposed prices for each contract line item on which the offeror is making a proposal.

**2. PAST PERFORMANCE**

Automated Best Value System (ABVS)

Each offeror will be assigned an ABVS score based upon its past performance.

**Past Performance:**

Past Performance information is maintained for performance under all procurements with the Defense Logistics Agency (DLA). \*\* Overall performance is evaluated as is performance in each Federal supply Class (FSC). This information is used to generate ABVS ratings, which are based on the following indicators:

**Delivery Delinquencies**

- Number
- Severity
- Contractor Caused Terminations, Cancellations, and Withdrawals

For administrative purposes, the delivery rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the Contract Delivery Date (CDD).

**Quality Complaints**

- Product Nonconformance/Laboratory Test Failures
- Packaging Non-conformances

For administrative purposes, the quality rating period excludes the most recent 30 days.

\*\* The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

**SECTION L  
INSTRUCTIONS TO OFFERORS**

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at [https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public\\_BSM.asp](https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp). Awards not included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the "BSM Supplier Information Resource Center" and the link is <http://www.dla.mil/j-6/bsm/sirc/>.

**NOTE:** The above 60 and 30 day offset periods are NOT grace periods.

ABVS rating does not determine an offeror's award eligibility, or technical acceptability, nor does it constitute a responsibility or non-responsibility determination.

By accessing the DSCC Internet Bid Board System (DIBBS), (<http://dibbs.dsccols.com/>), each offeror will be provided the opportunity to review their ABVS scores and negative historical performance data. For any questions or challenges to negative performance data, please forward requests/challenges to an ABVS Administrator at the below cited address, or telephone/fax an Administrator at one of the provided numbers:

Mail request to:

(614) 692-1381  
(614) 692-3383

When a discrepancy between contractor data and Government data occurs, the Government will make every effort to resolve the discrepancy expeditiously. However, the Government may make an award decision despite the existence of an unresolved challenge. The Government is the final authority for resolution of disputed data and its use in the source selection process.

Other Past Performance Information:

The offeror may provide past performance information, as follows, for consideration along with the offeror's ABVS score, in evaluating past performance:

- (a) A list of contracts, commercial or government, performed within the past two years, limited to three (3) government and three (3) commercial contracts for the same or similar items. The offeror shall provide or include a point of contact (POC), address, telephone number, an average dollar amount of the contract per annum, the period of performance, and a sample listing of the items provided for under the commercial contracts. For any government contracts, provide the government agency, a (POC), telephone number, appropriate contract number, estimated dollar value of the contract, period of performance, and a sample listing of the items provided. The Government reserves the right to limit the number of references it decides to contact.
- (b) A listing of any "problems" or discrepancies (includes shortages, overages, damages, defects, or misshipments, etc.) experienced within the past year for the contracts or customers reported in reference to paragraph 1a. Include a brief description of how these problems were addressed and remedied.

The offeror shall describe the extent of its past performance in subcontracting with small, small disadvantaged, women-owned small business concerns, and JWOD entities, in the past two years for the contracts reported in response to paragraph 1 above. The offeror shall also describe the extent of its past participation in the DLA Mentoring Business Agreements Program.

**SECTION L  
INSTRUCTIONS TO OFFERORS**

**3. DELIVERY**

See Section F of the solicitation for time, place and method of delivery or performance.

**4. SURGE AND SUSTAINMENT**

Information may be required from the offeror as specified in provision L17D04, Surge and Sustainment (S&S) Evaluation Factor.

**SUBSEQUENT ORDERS**

Orders issued under contract(s) resulting from this solicitation will initially be placed to meet each contract(s) minimum quantity or dollar requirements. All subsequent orders will be awarded on the basis of Best Value, considering the following factors, ranked in descending order of importance (applies to orders issued over \$2,500.00).

**1. PRICE**

**2. PAST PERFORMANCE**

a. Delivery

The ability to deliver a quality product on earlier orders and compliance with delivery schedules will be considered.

**NOTES:**

The competition requirements set forth in FAR Part 6 do not apply to placement of individual delivery orders.

The quantities on each requirement may be divided among more than one contractor. Evaluation will be based upon current information available at the time of placement of the order.

Complaints about the placement of individual delivery orders will be reviewed by the DSCC competition advocate, Mr. Carl Jura, DSCC-PC, (614)-692-4124 or FAX (614)-692-3810.

**SECTION M  
EVALUATION FACTOR FOR AWARD**

**General Basis for Award:**

**Multiple Awards:** The Government intends to make an award to the offeror that represents the best value to the Government. Additional awards may be made to offeror(s) representing the next best value(s). Award(s) will be made in the combination that will assure the Government needs in terms of delivery, quality, and price will be met during the life of the contract(s). However, the government will award no more than \_\_\_\_ contracts per NSN or CLIN groups as a result of the resolicitation.

**Single Awards:** The award of each item of supply specified in this solicitation will be made to the responsible offeror whose offeror conforms with the solicitation and is most advantageous to the Government. In making the best value determination, the Government will make a comparative assessment of the offerors.

All proposals will be evaluated to determine that the offered price(s) reflects a technical understanding of the requirement and those considered unrealistic may be rejected.

**Evaluation Factors:**

The Government will base the determination of best value on a comparative assessment of the offeror's prices, past performance, and other evaluation factors as identified in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors when combined are:

approximately equal to price; or

significantly less important than price. As the evaluated price becomes more equal, relative importance of all other evaluation factors become more significant.

significantly more important than price. As other evaluation factors become more equal, the evaluated price becomes more important.

The final award decision may be made through a trade-off between price and the non-price factors.

The following factors, ranked in descending order of importance, will be considered in the evaluation of proposals received under this solicitation:

1. Price
2. Past Performance
3. Proposed Delivery
4. Surge and Sustainment

**1. PRICE:**

The offered price will be evaluated as adjusted by price related evaluation factors identified in this solicitation together with the following:

**M15D04** – Weighted Average Price Evaluation Method (DSCC 52.215-9C19) (SEP 2000)

**M16D01** – Evaluation of Offers for Indefinite Delivery Type Solicitations (DSCC 52.216-

9C07) (MAY 2003)

**SECTION M  
EVALUATION FACTOR FOR AWARD**

( ) Other

The Government will also evaluate the reasonableness of offered prices.

**2. PAST PERFORMANCE EVALUATION FACTORS:**

Past performance includes but is not limited to, the offeror's record of conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior. The Government will use the past performance evaluation factors marked below:

- ( X ) Automated Best Value System (ABVS) (as defined below)
- ( ) Socioeconomic Support
- ( ) DLA Mentoring Business Program
- ( ) JWOD

**ABVS**

The government will consider the offeror's ABVS score\*\* and any other information provided relating to the offeror's performance (see Section L). The Government will review and evaluate the offerors reputation for conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior.

The Government may solicit information from an offeror's customers and business associates; federal, state, and local government agencies; and from other persons and organizations as deemed necessary. The Government reserves the right to limit the number of references it decides to query and to contact references other than those provided by the offeror.

An offeror's ABVS rating is an indicator of performance risk and will be evaluated first on the basis of past performance in the same Federal Supply Class (FSC) as the supplies being solicited. The Contracting Officer may consider the volume of business on which the performance score is based as a measure of confidence in the FSC score. A vendor's overall score may also be evaluated when a satisfactory measure of confidence cannot be obtained from the FSC score or if a vendor has no FSC score. The Contracting Officer may also take into consideration any other available and relevant past performance data. An offeror with no performance history in any FSC procured by DLA will be identified as a new offeror and will not be scored by the ABVS on performance. However, any other available and relevant past performance data may be considered in rendering an award decision. Regardless, the status of being a new offeror will not be grounds for disqualification for an award. New offerors may be considered more favorably than scored offerors with a poor performance record. Also, the desirability of expanding the supplier base and possible competition enhancement in future procurements will be considered in the source selection decision when new offerors are present.

\*\* The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

\*\*Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new

**SECTION M**  
**EVALUATION FACTOR FOR AWARD**

contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at [https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public\\_BSM.asp](https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp). Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Supplier Information Center at <http://www.dla.mil/j-6/bsm/sirc/>. Additional information about ABVS and how to obtain your ABVS score can be found at <http://www.dsc.dla.mil/programs/abvm/>.

**3. PROPOSED DELIVERY:** Offerors will be evaluated based on their offered delivery as compared to the government's required delivery. Preference may be given for offered deliveries that are shorter than the required delivery.

**4. SURGE AND SUSTAINMENT**

PALLETIZATION NO. DC1636P001  
96150

1. **SCOPE.** This sheet covers the requirements for palletization of DSCC items or supply for handling, shipment, and storage.

2. **REFERENCED DOCUMENTS.** The following documents, of the issue in effect on the date of solicitation, form a part of this palletization sheet to the extent specified herein:

Specifications

FEDERAL

NN-P-71 Pallets, Material Handling, Wood Stringer Construction, 2-way and 4-way (Partial)

Standards

MILITARY

MIL-STD-147 Palletized Unit Load

(Copies of listed federal and military specifications, standards, and associated documents listed in the Department of Defense Index of Specifications and Standards (DODISS) should be obtained from DoD Single Stock Point, Commanding Officer, Naval Publications and Forms (Center, 5801 Tabor Ave., Philadelphia, PA 19120-5099).

3. **REQUIREMENTS.**

Shipments of identical items packed in four or more shipping containers exceeding a total of 48 cubic feet per destination shall be palletized except when shipping containers are required to be skidded (see 3c) or a quantity of four shipping containers pallet exceeds the size or weight limitations for palletized loads (see 3a and 3b, as applicable). Shipments packed Level A or Level B shall be palletized in accordance with 3b.

a. Material may be palletized on commercial pallets provided the load meets the following requirements:

(1) The load does not exceed 52 inches in length or width, 54 inches in height, and 3,000 pounds.

(2) The load is prepared and secured in a manner that will ensure carrier acceptance and permit safe rehandling at destination.

b. Palletization shall comply with MIL-STD-147 and appendices there to modified as follows:

(1) Loads shall be stable and shall not exceed the size and overseas limitations of MIL-STD-147.

(2) Glued loads shall not be used.

(3) For Level A packing, pallets shall comply with NN-P-71, Type V, class 1, size 2, except softwood may be used and the size may be reduced to a minimum of 36 inches in length and 44 inches in width to properly fit the load.

(4) For Level B packing, pallets shall conform to NN-P-71, Type II, size 2, Type IV, or Type V, class 1, size 2. Wood used to construct pallets shall be group II, III, or IV, grade A, as specified in NN-P-71.

(5) Residual quantities of less than the quantity required for one course of the load need not be palletized.

c. Palletization is not required for shipping containers that are constructed with skids. Shipping containers, except drums, exceeding 70 pounds gross weight or 40 inches in length, shall be constructed with skids. Skids shall be a minimum of 3x4 inch (nominal) lumber and shall be securely attached to permit multiple re-handling at destination. Drums shall be palletized.
