SECTION D**D11C03 52.211-9010 MILITARY SHIPPING LABEL (MSL) REQUIREMENTS - MIL-STD-129P (MAR 2004) DLAD**

(a) MIL-STD-129, Revision P, dated December 15, 2002, establishes the requirement for Contractors that ship packaged materiel to the Government to provide both linear and two-dimensional (2-D) bar coding on military shipping labels (MSLs) (but see exceptions in paragraph (d)). The new requirements apply to all shipments, which includes either depot (DLA-Direct) or DVD (Customer-Direct) shipments. Linear

(Code 3 of 9 or Code 39) bar codes continue to be required on interior packages (unit and intermediate packages) for the National Stock Number (NSN) and, when applicable, the serial number; and on shipping containers and palletized unit loads for the NSN, Contractor and Government Entity (CAGE) Code, contract number and, when applicable, the serial number. The new requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P.

(b) The new MSL replaces former DD Form 1387 and is illustrated in Figures 2a and 2b of MIL-STD-129P. The MSL requires Code 3 of 9 or Code 39 linear bar codes for the Transportation Control Number (TCN), piece number and DoDAAC for the ultimate consignee or mark-for address. The 2-D bar code on the MSL must contain the document (requisition) number, NSN, Routing Identifier Code (RIC), Unit of Issue, Quantity, Condition Code, and Unit Price, which are ordinarily

included on the DD Form 250 or the DD Form 1348-1A. MIL-STD-129P provides numerous illustrations of what must be bar-coded and the recommended placement of the bar code. When

the contract omits any data element required to be bar-coded, the field should be zero-filled.

(c) MIL-STD-129P, sources for conforming labels, and related information are available on the DLA Packaging Web Site at URL: <http://www.dscc.dla.mil/offices/packaging/specstdslist.html#STDs>.

(d) This clause does not apply to -
(1) Subsistence items procured through full-line food distributors (prime vendors), 'market ready' type items such as fresh milk, ice cream, and other fresh dairy products, fresh bread and other fresh bakery products, and all fresh fruits and vegetables, shipped within the Continental United States (CONUS) to customers within CONUS;
(2) Any item for which ownership remains with the vendor until

the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the vendor into the designated location or issuance from the designated location by vendor personnel (i.e., the vendor is required to stock bins at the customer location and/or issue parts from a vendor controlled parts room); or
(3) Bulk purchases of petroleum, oil and lubricant products delivered by (1) pipeline; or (2) tank car, tanker and tank trailer for which the container has (i) a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (ii) a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (iii) a water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas.

NOTE 2: Reject offers received via the DSCC Internet Bid Board System (DIBBS). This mode of transmission is not authorized for large purchase acquisition. If the DIBBS offer is received outside the Bid Opening Room, the receiver will immediately hand deliver the offer to the Bid Opening Officer.

The Bid Opening Officer will return ALL DIBBS offers (whether received in or outside the Bid Opening Room) to the contractor. The offer will be returned as an attachment to the letter of rejection. This letter advises that it is unfair and improper to consider the offer since it would have a potential competitive advantage over other offerors, e.g., there could be more time in which to prepare the offer. FAR 14.301(e)/FAR 15.402(k) stipulate that the solicitation must specify which electronic commerce method is permitted.

M13D01 52.213-9C07 NOTE TO 52.213-9001, EVALUATION FACTOR FOR SOURCE INSPECTION (FEB 2004) DSCC

If this solicitation is intended to result in the award of a contract under which multiple orders may be placed, for evaluation purposes, it is anticipated that orders will be issued during the entire term of the contract. solicitation; or
(5) Failed to liquidate indebtedness to DLA, to the following extent.

(b) As a consequence of the Government's cost incurrence associated with conducting a PAS, for purposes of determining the present responsibility of any offeror described in (a) (1) through (5) above and to ascertain the most advantageous offer

received, price and other factors considered, the amount of \$369, which is the average amount of the direct costs of performing the PAS, shall be added as an evaluation factor to such offeror's total offered price.

(c) Nothing in this provision affects the right of the Government to perform or not to perform a preaward survey on any offeror.
