SECTION D**D11C03 52.211-9010 MILITARY SHIPPING LABEL (MSL) REQUIREMENTS - MIL-STD-129P (MAR 2004) DLAD**

(a) MIL-STD-129, Revision P, dated December 15, 2002, establishes the requirement for Contractors that ship packaged materiel to the Government to provide both linear and two-dimensional (2-D) bar coding on military shipping labels (MSLs) (but see exceptions in paragraph (d)). The new requirements apply to all shipments, which includes either depot (DLA-Direct) or DVD (Customer-Direct) shipments. Linear (Code 3 of 9 or Code 39) bar codes continue to be required on interior packages (unit and intermediate packages) for the National Stock Number (NSN) and, when applicable, the serial

number; and on shipping containers and palletized unit loads for the NSN, Contractor and Government Entity (CAGE) Code, contract number and, when applicable, the serial number. The new requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P.

(b) The new MSL replaces former DD Form 1387 and is illustrated in Figures 2a and 2b of MIL-STD-129P. The MSL requires Code 3 of 9 or Code 39 linear bar codes for the Transportation Control Number (TCN), piece number and DoDAAC for the ultimate consignee or mark-for address. The 2-D bar code on the MSL must contain the document (requisition) number, NSN, Routing Identifier Code (RIC), Unit of Issue, Quantity, Condition Code, and Unit Price, which are ordinarily

included on the DD Form 250 or the DD Form 1348-1A. MIL-STD-129P provides numerous illustrations of what must be bar-coded and the recommended placement of the bar code. When

the contract omits any data element required to be bar-coded, the field should be zero-filled.

(c) MIL-STD-129P, sources for conforming labels, and related information are available on the DLA Packaging Web Site at URL: <http://www.dsccl.dla.mil/offices/packaging/specstdslist.html#STDs>.

(d) This clause does not apply to -
(1) Subsistence items procured through full-line food distributors (prime vendors), 'market ready' type items such as fresh milk, ice cream, and other fresh dairy products, fresh bread and other fresh bakery products, and all fresh fruits and vegetables, shipped within the Continental United States (CONUS) to customers within CONUS;
(2) Any item for which ownership remains with the vendor until

the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the vendor into the designated location or issuance from the designated location by vendor personnel (i.e., the vendor is required to stock bins at the customer location and/or issue parts from a vendor controlled parts room); or
(3) Bulk purchases of petroleum, oil and lubricant products delivered by (1) pipeline; or (2) tank car, tanker and tank trailer for which the container has (i) a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (ii) a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (iii) a water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas.

NOTES: In bar code element 1 above, the Document Number consists of a 14-character (15 characters when a suffix is included) alphanumeric code. It may be listed on a contract/award as the Requisition Number, Transportation Control Number (TCN), etc.

In bar code element 2 above, the NSN will appear as a 13-digit code without the dashes.

In bar code element 3 above:

The RIC for each procuring activity is as follows:

S9C - Defense Supply Center Columbus - Construction
S9E - Defense Supply Center Columbus - Electronics
S9F - Defense Energy Support Center
S9G - Defense Supply Center Richmond
S9I - Defense Supply Center Philadelphia - General and Industrial
S9T - Defense Supply Center Philadelphia - Clothing and Textiles
S9M - Defense Supply Center Philadelphia - Medical Materiel
S9P - Defense Supply Center Philadelphia - Perishable Subsistence
S9S - Defense Supply Center Philadelphia - Semi-perishable Subsistence

The appropriate unit of issue (U/I) will appear as a two digit alpha character.

The quantity will appear as a five-position number, including zero fillers on the left.

The above will be followed by an 'A' and eight zeros, (i.e. 'A0000000')

NOTE 1: When sending a facsimile proposal, the contractor should program the machine to include his telephone number as the distant station ID. This information is required to assist in documenting receipt of the order.

NOTE 2: Reject offers received via the DSCC Internet Bid Board

System (DIBBS). This mode of transmission is not authorized for large purchase acquisition. If the DIBBS offer is received outside the Bid Opening Room, the receiver will immediately hand deliver the offer to the Bid Opening Officer.

The Bid Opening Officer will return ALL DIBBS offers (whether received in or outside the Bid Opening Room) to the contractor. The offer will be returned as an attachment to the letter of rejection. This letter advises that it is unfair and improper to consider the offer since it would have a potential competitive advantage over other offerors, e.g., there could be more time in which to prepare the offer. L17C01 52.217-9002 CONDITIONS FOR EVALUATION AND
 ACCEPTANCE OF OFFERS FOR PART NUMBERED ITEMS (JUL 2002)
 DLAD

(a) The product described in the acquisition identification description (AID) of this solicitation is that product which the Government has determined to be acceptable. All Offerors shall indicate below, or through an alternative means in an electronic quoting system, whether they are offering an 'exact product,' an 'alternate product' (which includes a 'previously reverse-engineered product'), a 'superceding part number,' or a 'previously-approved product,' and shall furnish the data required for whichever is applicable. (To determine which type of product to indicate, Offerors must refer to the criteria in subparagraphs (b)-(e) of this provision, respectively.) Any product offered must be either a product cited in the AID; or be physically, mechanically, electrically, and functionally interchangeable with a product cited in the AID, including additional requirements referred to in the AID, if any.

Exact Product - Applies to CLIN(s):

(Vendor Fill-in)

Alternate/Previously Reverse-Engineered Product - Applies to CLIN(s):

(Vendor Fill-in)

Superceding Part Number - Applies to CLIN(s):

(Vendor Fill-in)

Previously-Approved Product - Applies to CLIN(s):

(Vendor Fill-in)

(b) 'Exact product.'

(1) 'Exact product' means a product described by the name of an approved source and its corresponding part number, as currently cited in the AID; modified (if necessary) to conform to any additional requirements set forth in the AID; and manufactured by, or under the direction of, that approved source. If an Offeror indicates that an 'exact product' is being offered, the Offeror must meet one of the descriptions in subparagraphs (i)-(iv) below. (Any Offeror not meeting one of these descriptions is not considered to be offering 'exact product,' even though the item may be manufactured in accordance with the drawings and/or specifications of an approved source currently cited in the AID.)

(i) An approved source currently cited in the AID offering its corresponding part number as cited in the AID;

(ii) A dealer/distributor offering the product of an approved source that meets the description in subparagraph (i) above;

(iii) A manufacturer who (A) produces the offered item under the direction of an approved source currently cited in the AID; and (B) has authorization from that approved source to manufacture the item, identify it as that approved source's name and part number, and sell the item directly to the Government. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation to demonstrate such authorization.

(iv) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (iii)

above. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation that demonstrates such authorization.

(2) When the AID identifies the item being acquired as a critical safety item (CSI), offers of exact product will be evaluated in accordance with 52.211-9005.

(c) 'Alternate product.'

(1) The Offeror must indicate that an 'alternate product' is being offered if the Offeror is any one of the following:

(i) An Offeror who (A) manufactures the item for an approved source currently cited in the AID; and (B) does not have authorization from that approved source to manufacture the item, identify it as the approved source part number, and sell the item directly to the Government;

(ii) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (i) above;

(iii) An Offeror of a previously reverse-engineered product that is not currently cited in the AID; or

(iv) Any other Offeror who does not meet the criteria in subparagraphs (b)(1), (d), or (e) of this provision.

(2) If an alternate product is offered, the Offeror shall furnish with its offer legible copies of all drawings, specifications, or other data necessary to clearly describe the characteristics and features of the alternate product being offered. Data submitted shall cover design, materials, performance, function, interchangeability, inspection and/or testing criteria, and other characteristics of the offered product. If the offered product is to be manufactured in accordance with data the Offeror has obtained from elsewhere within the Government, the Offeror shall either furnish the detailed data specified in this paragraph, or supply a description of the data package in its possession; i.e., basic data document and revision, the date the data was obtained and from whom (Government agency/activity). If the Offeror does not furnish the detailed data with its offer, the Contracting Officer will be unable to begin evaluation of the offered product until such time as the detailed data can be obtained from the Government agency/activity possessing the data. If the alternate product is a previously reverse-engineered product, the Offeror shall provide traceability documentation to establish that the offered item represents the item specified in the AID (i.e., invoice from an approved source or submission of samples having markings of an approved source); number of samples that were examined; the process/logic used; raw data (measurements, lab reports, test results) used to prepare drawings or specifications for the offered item; any additional evidence that indicates the reverse-engineered item will function properly in the end item; and any evidence that life cycle/reliability considerations have been analyzed.

(3) In addition, the Offeror may be required to furnish data describing the 'exact product' cited in the AID. The data required from the Offeror depends on the level of technical data describing the exact product, if any, available to the Government. The possible levels of technical data the Government may have and the corresponding data submission requirements for Offerors are identified in subparagraphs (a)-(d) below. For the item(s) being acquired under this solicitation, the level of data in the Government's possession and the corresponding requirements for data submission are identified in the AID; or, if not specified in the AID, are as follows: C [buyer insert (a), (b), (c), or (d), as applicable, if AID does not identify]. (If the level of data in the Government's possession and Offeror requirements for data submission are not identified in either the AID or in this subparagraph (c)(3), then subparagraph (a) below applies.)

(a) No data: This Agency has no data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the AID, sufficient to establish that the Offeror's product is equal to the product cited in the AID.

(b) Adequate proprietary (i.e., limited rights) data: This Agency possesses adequate drawings and/or specifications for the exact product as cited in the AID, but such data are proprietary (i.e., limited rights) and shall be used only for evaluation purposes. The Offeror must furnish the data required in subparagraph (c)(2) of this provision, but is not required to submit data on the exact product.

(c) Inadequate data: This Agency does not have adequate data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the AID, sufficient to establish that the Offeror's product is equal to the product cited in the AID.

(d) Adequate catalog data: This is a commercial off the shelf item. Adequate catalog data are available at the contracting office to evaluate alternate offers. In addition to the data required in subparagraph (c) (2) of this provision, the Offeror must furnish with its offer a commercially-acceptable cross reference list; or legible copies of all drawings, specifications or other data necessary to clearly describe the characteristics and features of the alternate product being offered, sufficient to establish that the Offeror's product is equal to the product cited in the AID. The Offeror is not required to submit data on the exact product.

(3) Except for indefinite delivery purchase orders (IDPOs), if this solicitation is automated (i.e., if the solicitation number begins with SPE; or begins with SP0 and contains 'T' or 'U' in the ninth position of the procurement instrument identification number (PIIN)), the Contracting Officer will not evaluate offers of alternate product (which includes offers of previously reverse-engineered product) for the current procurement. Instead, the Offeror shall submit a request to the location below for evaluation of the alternate product's technical acceptability for future procurements of the same item. The request for evaluation shall cite the National Stock Number (NSN) of the exact product and, as identified in this provision, include the applicable level of technical data on the alternate and exact products. All offers of alternate product will be handled in accordance with DLAD 17.7501(b) (4).

(d) 'Superceding part number.'

(1) The Offeror must indicate that a 'superceding part number' is being offered if the offered item otherwise qualifies as an 'exact product,' except that the part number cited in the AID has been superceded. The Offeror may be requested to furnish data, or provide confirmation through some other means, sufficient to establish that there are no changes in the configuration of the part. However, if such data are unavailable, the Offeror may be required to furnish technical data as required in paragraph (c) for 'alternate products.' (If such data indicate there have been changes in the configuration of the part, the offered item must be identified as an 'alternate product.')

(2) For solicitation numbers beginning with SPE, any data to be furnished with an offer of a 'superceding part number' should be mailed to the buyer at the procuring activity address on the solicitation. (Uploading the information with the quotation, or including it in the 'Remarks' section, will make the offer a 'bid with exception,' causing it not to be evaluated.)

(e) 'Previously-approved product.'

(1) If the product offered has previously been furnished to the Government or otherwise previously evaluated and approved, the Offeror shall indicate in the space provided below, or through an alternative means in an electronic quoting system, the contract and/or solicitation number under which the product was furnished or approved.

CLIN NR(s) _____ (Vendor Fill-in)
have been previously furnished or evaluated and approved under contract/solicitation number _____

(2) If the product was furnished or evaluated and approved by a contracting activity different from the one issuing this solicitation, Offerors are advised that the Contracting Officer may not have access to records of another activity or other information sufficient to reasonably determine the

offered product's acceptability. Therefore, in order to ensure that adequate data is available for evaluation, Offerors may elect to furnish with their offer the information requested by subparagraph (b) or (c) of this provision, whichever is applicable for the offered product. Offerors are advised that if the additional data is not furnished, the Government may not be able to evaluate the offer. (For solicitation numbers beginning with SPE, the information should be mailed to the buyer at the procuring activity address on the solicitation. Uploading the information with the quotation, or including it in the 'Remarks' section, will make the offer a 'bid with exception,' causing it not to be evaluated.)

(f) For all types of offers ('exact product,' 'alternate product,' 'superceding part number,' or 'previously-approved product'), Offerors shall provide the Contractor and Government Entity (CAGE) Code of the manufacturer and the part number being offered for each item in the solicitation.

(g) Failure to furnish adequate data and/or information as prescribed in subparagraph (b), (c), (d) or (e) of this provision (when required for the current procurement) within 10 business days or less, or as otherwise required by the Contracting Officer or elsewhere in this solicitation, may preclude consideration of the offer. For automated procurements, it is the responsibility of the Offeror when offering a 'superceding part number' or a 'previously-approved part number' to ensure that supporting documentation arrives at the contracting activity within 2 business days after the data is requested, or the offer may not be considered. The Agency will make every effort to determine, prior to award, the acceptability of the products offered which meet the dollar savings threshold shown below, and/or which have a reasonable chance to receive an award based on price offered. Generally, the Agency will not evaluate alternate offers not meeting the dollar threshold. The savings potential is based on the cost of evaluation (\$200.00 if only a local technical evaluation is involved, plus an additional \$1,200.00 for each required Engineering Support Activity evaluation). If the Agency determines that an evaluation cannot be completed before the expected contract award date due to urgent requirements for the item, alternate offers will not be considered for the current procurement. Instead, they will be evaluated for technical acceptability for future procurements of the same item, if adequate data is submitted and savings potentials are expected, as stipulated above. For alternate offers not evaluated, the Offeror's complete technical data package will be returned.

(h) If Offerors desire to restrict the Government's use of data submitted for evaluation, the data must bear the appropriate legends as prescribed by FAR 52.215 1(e). In the event an award is made to an Offeror submitting data without the appropriate legend, the Government will have unlimited rights to its use as defined in DFARS 252.227 7013.

(i) It is the Government that determines if the documentation or other evidence furnished by an Offeror is adequate to satisfy the requirements in this provision. If the Contracting Officer requests evidence from a Contractor who received an award resulting from this solicitation, and the Contracting Officer subsequently finds the evidence to be unacceptable, the award may be cancelled.

EVALUATION AND ACCEPTANCE OF OFFERS FOR PART NUMBERED ITEMS

(FEB 2004) DSCC

If the exact product is offered, any offeror other than the manufacturer cited in the PID must furnish, when requested by the Contracting Officer, evidence that the product being offered is that product described by the manufacturer's name and part number specified in the PID. Such evidence may be an

invoice or other correspondence from the manufacturer cited in the PID or other evidence sufficient to establish the identity

of the product and its manufacturing source. In addition, if the product is manufactured for the manufacturer cited in the PID, evidence of approval and acceptance by the manufacturer cited in the PID must also be furnished.

(a) The use in this solicitation of any Federal Acquisition regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of '(DEVIATION)' after the date of the provision.

(b) The use in this solicitation of any DoD FAR Supplement (DFARS) (48 CFR Chapter 2) provision with an authorized deviation is indicated by the addition of '(DEVIATION)' after the name of the regulation.

SECTION M

M11C01 52.211-9003 CONDITIONS FOR EVALUATION OF OFFERS OF GOVERNMENT SURPLUS MATERIAL (APR 2002) DLAD

M15C01 52.215-9001 EVALUATION FACTOR FOR PREAWARD SURVEY (MAR 1994) DLAD

(a) Although a majority of awards are made without the necessity of conducting a preaward survey (PAS) of the proposed awardee, such a survey may be required to be conducted of those offerors listed in (1) through (5) below as

follows. Firms or individuals that have:
(1) Been listed on the GSA List of Parties Excluded from Federal Procurement Programs within the past THREE YEARS from the date of solicitation opening or closing; or
(2) Undergone reorganization under bankruptcy laws within the past THREE YEARS from the date of solicitation opening or closing, or are currently undergoing such reorganization; or
(3) Been included on the Defense Logistics Agency (DLA) Contractor Alert List (CAL), or are otherwise known to the contracting officer to have a poor or marginal performance history; or
(4) Within the past YEAR received a negative PAS for an item within the same Federal Supply Class (FSC) as the item of supply, or for the same or similar service required under this solicitation; or
(5) Failed to liquidate indebtedness to DLA, to the following extent:
WITHIN THE PAST YEAR

(b) As a consequence of the Government's cost incurrence associated with conducting a PAS, for purposes of determining the present responsibility of any offeror described in (a) (1) through (5) above and to ascertain the most advantageous offer

received, price and other factors considered, the amount of \$369, which is the average amount of the direct costs of performing the PAS, shall be added as an evaluation factor to such offeror's total offered price.

(c) Nothing in this provision affects the right of the Government to perform or not to perform a preaward survey on any offeror.

* Insert applicable time period in accordance with 15.304(c)(95)(A), (B) and (D).

** Insert the extent of indebtedness that applies in accordance with 15.304(c)(95)(R)

M15D04 52.215-9C19 WEIGHTED AVERAGE PRICE EVALUATION METHOD (SEP 2000) DSCC

By use of the following weights a weighted average price will be developed for each item using the formula stated in subparagraphs (1) through (3) below.

INCREMENT	WEIGHT
A	1
B	2
C	1
D	1
E	1
F	

(1) The weighted average price (for a given item for a given year) will be arrived at as follows:

(Offered unit price) x (increment weight) = weighted unit price

(Sum of weighted unit prices) divided by (the sum of the weights) = weighted average price.

(2) (The weighted average price) x (the estimated annual requirement) = estimated annual cost for a given item for a given year.

(3) The sum of the estimated annual costs for a given item for

the base year plus any option periods = the total estimated cost for that item.
