A04D01 52.204-9C06 DSCC Part 52 - SOLICITATION PROVISIONS AND CONTRACT CLAUSES STATEMENT (JUL 2004)

Full text of all DLAD/DSCC clauses listed within this individual solicitation are contained in the DSCC Part 52 - Solicitation Provisions and Contract Clauses, current version found at <http://dibbs.dsccl.dla.mil/refs/provclauses>. Also, the full text of FAR/DFARS clauses incorporated by reference may be accessed electronically at <http://www.dla.mil/j-3/j-336/icps.htm>. The clauses/provisions incorporated by reference have the same force and effect as if

they were in full text; however, those having no bearing on the instant acquisition become self-deleting. In the event of

an inconsistency between text found in DSCC Part 52 and the individual solicitation/award, the provision of the individual

solicitation/award shall govern.

A04D02 52.204-9C07 PAYMENT BY ELECTRONIC FUNDS TRANSFER (EFT) - CENTRAL CONTRACTOR REGISTRATION (CCR) DSCC:

Unless otherwise stated in the remarks section of this contract/order, the payment information contained in the CCR has precedence over any other payment information that may be printed in the Remittance Address field of this contract/order.

A11D01 52.211-9C41 DELIVERY INSTRUCTIONS FOR NEW CUMBERLAND, PA AND TRACY, CA (OCT 2000) DSCC

It is the contractor's responsibility for requiring carriers to telephone the Consignee's Transportation Officer (Transport Control/Prelodge Desk) at least 24 hours prior to delivery of freight shipments (other than small parcels) and bills of lading must be annotated to reflect this requirement. Carriers may experience delays if notification requirements are not made.

SECTION D**D11C03 52.211-9010 MILITARY SHIPPING LABEL (MSL) REQUIREMENTS - MIL-STD-129P (MAR 2004) DLAD**

(a) MIL-STD-129, Revision P, dated December 15, 2002, establishes the requirement for Contractors that ship packaged

materiel to the Government to provide both linear and two-dimensional (2-D) bar coding on military shipping labels (MSLs) (but see exceptions in paragraph (d)). The new requirements apply to all shipments, which includes either depot (DLA-Direct) or DVD (Customer-Direct) shipments. Linear

(Code 3 of 9 or Code 39) bar codes continue to be required on interior packages (unit and intermediate packages) for the National Stock Number (NSN) and, when applicable, the serial

number; and on shipping containers and palletized unit loads for the NSN, Contractor and Government Entity (CAGE) Code, contract number and, when applicable, the serial number. The new requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P.

(b) The new MSL replaces former DD Form 1387 and is illustrated in Figures 2a and 2b of MIL-STD-129P. The MSL requires Code 3 of 9 or Code 39 linear bar codes for the Transportation Control Number (TCN), piece number and DoDAAC for the ultimate consignee or mark-for address. The 2-D bar code on the MSL must contain the document (requisition) number, NSN, Routing Identifier Code (RIC), Unit of Issue, Quantity, Condition Code, and Unit Price, which are ordinarily

included on the DD Form 250 or the DD Form 1348-1A. MIL-STD-129P provides numerous illustrations of what must be bar-coded and the recommended placement of the bar code. When

the contract omits any data element required to be bar-coded, the field should be zero-filled.

(c) MIL-STD-129P, sources for conforming labels, and related information are available on the DLA Packaging Web Site at URL: <http://www.dsccl.dla.mil/offices/packaging/specstdslist.html#STD> Ds.

(d) This clause does not apply to -

- (1) Subsistence items procured through full-line food distributors (prime vendors), 'market ready' type items such as fresh milk, ice cream, and other fresh dairy products, fresh bread and other fresh bakery products, and all fresh fruits and vegetables, shipped within the Continental United States (CONUS) to customers within CONUS;
- (2) Any item for which ownership remains with the vendor until

the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the vendor into the designated location or issuance from the designated location by vendor personnel (i.e., the vendor is required to stock bins at the customer location and/or issue parts from a vendor controlled parts room); or

- (3) Bulk purchases of petroleum, oil and lubricant products delivered by (1) pipeline; or (2) tank car, tanker and tank trailer for which the container has (i) a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (ii) a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (iii) a water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas.

NOTES: In bar code element 1 above, the Document Number consists of a 14-character (15 characters when a suffix is included) alphanumeric code. It may be listed on a contract/award as the Requisition Number, Transportation Control Number (TCN), etc.

In bar code element 2 above, the NSN will appear as a 13-digit code without the dashes.

In bar code element 3 above:

The RIC for each procuring activity is as follows:

- S9C - Defense Supply Center Columbus - Construction
- S9E - Defense Supply Center Columbus - Electronics
- S9F - Defense Energy Support Center
- S9G - Defense Supply Center Richmond
- S9I - Defense Supply Center Philadelphia - General and Industrial
- S9T - Defense Supply Center Philadelphia - Clothing and Textiles
- S9M - Defense Supply Center Philadelphia - Medical Materiel
- S9P - Defense Supply Center Philadelphia - Perishable Subsistence
- S9S - Defense Supply Center Philadelphia - Semi-perishable Subsistence

The appropriate unit of issue (U/I) will appear as a two digit alpha character.

The quantity will appear as a five-position number, including zero fillers on the left.

The above will be followed by an 'A' and eight zeros, (i.e. 'A00000000')

() (Vendor Fill-in) Does anticipate that supplies will be transported by sea in the performance of any contract or subcontract resulting from this solicitation.

(a) The product described in the acquisition identification description (AID) of this solicitation is that product which the Government has determined to be acceptable. All Offerors shall indicate below, or through an alternative means in an electronic quoting system, whether they are offering an 'exact product,' an 'alternate product' (which includes a 'previously reverse-engineered product'), a 'superceding part number,' or a 'previously-approved product;' and shall furnish the data required for whichever is applicable. (To determine which type of product to indicate, Offerors must refer to the criteria in subparagraphs (b)-(e) of this provision, respectively.) Any product offered must be either a product cited in the AID; or be physically, mechanically, electrically, and functionally interchangeable with a product cited in the AID, including additional requirements referred to in the AID, if any.

() (Vendor Fill-in) Does not anticipate that supplies will be transported by sea in the performance of any contract or subcontract resulting from this solicitation.

(b) 'Exact product.'
(1) 'Exact product' means a product described by the name of an approved source and its corresponding part number, as currently cited in the AID; modified (if necessary) to conform to any additional requirements set forth in the AID; and manufactured by, or under the direction of, that approved source. If an Offeror indicates that an 'exact product' is being offered, the Offeror must meet one of the descriptions in subparagraphs (i)-(iv) below. (Any Offeror not meeting one of these descriptions is not considered to be offering 'exact product;' even though the item may be manufactured in accordance with the drawings and/or specifications of an approved source currently cited in the AID.)
(i) An approved source currently cited in the AID offering its corresponding part number as cited in the AID;
(ii) A dealer/distributor offering the product of an approved source that meets the description in subparagraph (i) above;
(iii) A manufacturer who (A) produces the offered item under the direction of an approved source currently cited in the AID; and (B) has authorization from that approved source to manufacture the item, identify it as that approved source's name and part number, and sell the item directly to the Government. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation to demonstrate such authorization.
(iv) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (iii) above. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation that demonstrates such authorization.
(2) When the AID identifies the item being acquired as a critical safety item (CSI), offers of exact product will be evaluated in accordance with 52.211-9005.

L15D05 NOTE TO FAR 52.215-5 FACSIMILE PROPOSALS (DEC 2003) DSCC

(c) The telephone number of receiving facsimile equipment is:
A/C 614-692-4275

NOTE 1: When sending a facsimile proposal, the contractor should program the machine to include his telephone number as the distant station ID. This information is required to assist in documenting receipt of the order.

NOTE 2: Reject offers received via the DSCC Internet Bid Board

System (DIBBS). This mode of transmission is not authorized for large purchase acquisition. If the DIBBS offer is received outside the Bid Opening Room, the receiver will immediately hand deliver the offer to the Bid Opening Officer.

The Bid Opening Officer will return ALL DIBBS offers (whether received in or outside the Bid opening room) to the contractor. The offer will be returned as an attachment to the letter of rejection. This letter advises that it is unfair and improper to consider the offer since it would have a potential competitive advantage over other offerors, e.g., there could be more time in which to prepare the offer. FAR 14.301(e)/FAR 15.402(k) stipulate that the solicitation must specify which electronic commerce method is permitted.

(c) 'Alternate product.'
(1) The Offeror must indicate that an 'alternate product' is being offered if the Offeror is any one of the following:
(i) An Offeror who (A) manufactures the item for an approved source currently cited in the AID; and (B) does not have authorization from that approved source to manufacture the item, identify it as the approved source part number, and sell the item directly to the Government;
(ii) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (i) above;
(iii) An Offeror of a previously reverse-engineered product that is not currently cited in the AID; or
(iv) Any other Offeror who does not meet the criteria in subparagraphs (b)(1), (d), or (e) of this provision.
(2) If an alternate product is offered, the Offeror shall furnish with its offer legible copies of all drawings, specifications, or other data necessary to clearly describe the characteristics and features of the alternate product

procurements, it is the responsibility of the Offeror when offering a 'superceding part number' or a 'previously-approved part number' to ensure that supporting documentation arrives at the contracting activity within 2 business days after the data is requested, or the offer may not be considered. The Agency will make every effort to determine, prior to award, the acceptability of the products offered which meet the dollar savings threshold shown below, and/or which have a reasonable chance to receive an award based on price offered. Generally, the Agency will not evaluate alternate offers not meeting the dollar threshold. The savings potential is based on the cost of evaluation (\$200.00 if only a local technical evaluation is involved, plus an additional \$1,200.00 for each required Engineering Support Activity evaluation). If the Agency determines that an evaluation cannot be completed before the expected contract award date due to urgent requirements for the item, alternate offers will not be considered for the current procurement. Instead, they will be evaluated for technical acceptability for future procurements of the same item, if adequate data is submitted and savings potentials are expected, as stipulated above. For alternate offers not evaluated, the Offeror's complete technical data package will be returned.

(h) If Offerors desire to restrict the Government's use of data submitted for evaluation, the data must bear the appropriate legends as prescribed by FAR 52.215 1(e). In the event an award is made to an Offeror submitting data without the appropriate legend, the Government will have unlimited rights to its use as defined in DFARS 252.227 7013.

(i) It is the Government that determines if the documentation or other evidence furnished by an Offeror is adequate to satisfy the requirements in this provision. If the Contracting Officer requests evidence from a Contractor who received an award resulting from this solicitation, and the Contracting Officer subsequently finds the evidence to be unacceptable, the award may be cancelled.

If the exact product is offered, any offeror other than the manufacturer cited in the PID must furnish, when requested by the Contracting Officer, evidence that the product being offered is that product described by the manufacturer's name and part number specified in the PID. Such evidence may be an

invoice or other correspondence from the manufacturer cited in the PID or other evidence sufficient to establish the identity

of the product and its manufacturing source. In addition, if the product is manufactured for the manufacturer cited in the PID, evidence of approval and acceptance by the manufacturer cited in the PID must also be furnished.

SECTION L - ADDENDUM
INSTRUCTIONS TO OFFERORS

SP093504R0033

Proposals will be evaluated in terms of both price and other evaluation factors in accordance with the evaluation criteria contained in this solicitation. Offerors should thoroughly read and understand the terms and conditions contained in the solicitation. Failure to provide any information requested in the solicitation, may render the offeror's proposal technically unacceptable and preclude it from any further consideration for contract award. Offerors should ensure that the information contained in their proposal is factual, accurate and complete. If the Government accepts the offer, it will contractually bind the successful offeror to the terms and conditions of the solicitations.

In addition to price, the Government will evaluate other business/technical factors in accordance with the evaluation criteria contained in the solicitation. These factors are deemed essential in order to determine the offer that best meets the Government's needs.

1. PRICE

Offerors shall submit a pricing proposal for the item(s) identified in the RFP's supplies or services with the offeror's insertions of its proposed prices for each contract line item on which the offeror is making a proposal.

2. PAST PERFORMANCE

Automated Best Value System (ABVS)

Each offeror will be assigned an ABVS score based upon its past performance.

Past Performance:

Past Performance information is maintained for performance under all procurements with the Defense Logistics Agency (DLA). ** Overall performance is evaluated as is performance in each Federal supply Class (FSC). This information is used to generate ABVS ratings which are based on the following indicators:

Delivery Delinquencies

- Number
- Severity
- Contractor Caused Terminations, Cancellations, and Withdrawals

For administrative purposes, the delivery rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the Contract Delivery

Date (CDD).

Quality Complaints

- Product Nonconformance/Laboratory Test Failures
- Packaging Nonconformances

For administrative purposes, the quality rating period excludes the most recent 30 days.

** The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems

with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the "BSM Supplier Information Resource Center" and the link is <http://www.dla.mil/j-6/bsm/sirc/>.

NOTE : The above 60 and 30 day offset periods are NOT grace periods.

ABVS rating does not determine an offeror's award eligibility, or technical acceptability, nor does it constitute a responsibility or non-responsibility determination.

By accessing the DSCC Internet Bid Board System (DIBBS), (<http://dibbs.dsccols.com/>), each offeror will be provided the opportunity to review their ABVS scores and negative historical performance data. For any questions or challenges to negative performance data, please forward requests/challenges to an ABVS Administrator at the below cited address, or telephone/fax an Administrator at one of the provided numbers:

Mail request to:
Defense Supply Center, Columbus
ATTN: DSCC-PAMB
P.O. Box 3990
692-4170
Columbus, OH 43216-5010

Telephone Numbers:
(614) 692-1381
(614) 692-3383
Facsimile (FAX) Number: (614)

When a discrepancy between contractor data and Government data occurs, the Government will make every effort to resolve the discrepancy expeditiously. However, the Government may make an award decision despite the existence of an unresolved challenge. The Government is the final authority for resolution of disputed data and its use in the source selection process.

Other Past Performance Information:

The offeror may provide past performance information, as follows, for consideration along with the offeror's ABVS score, in evaluating past performance:

- (a) A list of contracts, commercial or government, performed within the past two years, limited to three (3) government and three (3) commercial contracts for the same or similar items. The offeror shall provide or include a point of contact (POC), address, telephone number, an average dollar amount of the contract per annum, the period of performance, and a sample listing of the items provided for under the commercial contracts. For any government contracts, provide the government agency, a (POC), telephone number, appropriate contract number, estimated dollar value of the contract, period of performance, and a sample listing of the items provided. The Government reserves the right to limit the number of references it decides to contact.
- (b) A listing of any "problems" or discrepancies (includes shortages, overages, damages, defects, or misshipments, etc.) experienced within the past year for the contracts or customers reported in reference to paragraph 1a. Include a brief description of how these problems were addressed and remedied.

The offeror shall describe the extent of its past performance in the past two years for the contracts reported in response to paragraph (a) above for:

- (X) Subcontracting with small, small disadvantaged, women-owned small business concerns
- (X) Subcontracting with JWOD entities
- (X) Participation in the DLA Mentoring Business Agreements Program

3. DELIVERY

See Section F of the solicitation for time, place and method of delivery or performance.

4. SURGE AND SUSTAINMENT

Information may be required from the offeror as specified in provision L17D04, Surge and Sustainment (S&S) Evaluation Factor.

5. SOCIOECONOMIC CONSIDERATIONS:

In addition to the socioeconomic proposal required under K15C01, DLAD 52.215-9002, the offeror may propose participation by Historically Black Colleges and Minority Institutions.

6. MENTORING BUSINESS AGREEMENTS PROGRAM -

The offeror shall describe, as part of its proposal, its current or proposed participation in the DLA Mentoring Business Agreements (MBA) Program. Participants:

Cite your criteria for selecting a firm with whom to mentor. In addition provide the following information with all submissions:

- a. Name, address, and office/plant location for offeror and potential small business concern participants.
- b. Point of contact, job title, and phone number of all personnel involved in the development and oversight of any agreement from both parties. The Government reserves the right to limit the number of references it decides to contact.
- c. The number of people employed by the small business concern.

- d. Plans which identify new business ventures rather than expansion of existing agreements are preferred.
- e. The mentoring plan shall specifically identify the areas of development assistance (i.e. management/technical) that will be provided. Provide a discussion of the areas chosen for mentoring.
- f. Describe the scope of the plan (i.e. whether the plan will be specifically related to the requirements contained in this solicitation or will the plan cover other government and commercial contracts).
- g. The offeror shall identify and describe the management control techniques that will be used to ensure compliance with any MBA requirement in any contract resulting from this solicitation. This should include the record keeping communication techniques and the methods to be used to control track performance.

Program Objectives:

Provide a chart indicating the milestones for program implementation.

Discuss and describe the measurements or yardsticks that will be utilized to determine if program objectives and goals have been met. Projections of successful program measurements should result in:

- (i) an increase in the dollar value of subcontracts awarded to small business and small disadvantaged business concerns under DOD contracts;
- (ii) an improvement in the level of small business/small disadvantage business participation in DOD, other Federal agencies, and commercial contracting opportunities

7. JWOD (Javits-Wagner-O-Day Entity Proposal) PROGRAM FACTORS

The offeror may provide a proposal as required under K15C02, DLAD 52.215-9004.

Jul 2004 version

SECTION M - ADDENDUM

EVALUATION FACTOR FOR AWARD

SP093504R0033

General Basis for Award:

() **Multiple Awards:** The Government intends to make an award to the offeror that represents the best value to the Government. Additional awards for the same item or items may be made to offeror(s) representing the next best value(s). Award(s) will be made in the combination that will assure the Government needs in terms of delivery, quality, and price will be met during the life of the contract(s). However, the government will award no more than ___ contracts per NSN or CLIN groups as a result of the solicitation.

(X) **Single or Split Awards:** The award of each individual item of supply specified in this solicitation will be made to the responsible offeror whose offeror conforms with the solicitation and is most advantageous to the Government. In making the best value determination, the Government will make a comparative assessment of the offerors.

All proposals will be evaluated to determine that the offered price(s) reflects a technical understanding of the requirement and those considered unrealistic may be rejected.

Evaluation Factors:

The Government will base the determination of best value on a comparative assessment of the offeror's prices, past performance, and other evaluation factors as identified in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors when combined are:

(X) approximately equal to price; or

() significantly less important than price. As the evaluated price becomes more equal, relative importance of all other evaluation factors become more significant.

() significantly more important than price. As other evaluation factors become more equal, the evaluated price becomes more important.

The final award decision may be made through a trade-off between price and the non-price factors.

The following factors, ranked in descending order of importance, will be considered in the evaluation of proposals received under this solicitation:

1. Price
2. Past Performance
3. Proposed Delivery
4. ~~Surge and Sustainment~~
5. Socioeconomic Support
6. DLA Mentoring Business Program
7. JWOD Program

1. **PRICE:**

The offered price will be evaluated as adjusted by price related evaluation factors identified in this solicitation and, if indicated, the following:

- M15D04** – Weighted Average Price Evaluation Method (DSCC 52.215-9C19) (SEP 2000)
- M16D01** – Evaluation of Offers for Indefinite Delivery Type Solicitations (DSCC 52.216-9C07) (MAY 2003)
- Other** – Cost or pricing data if over \$550,000. Other than cost or pricing data if under \$500,000.

The Government will also evaluate the reasonableness of offered prices.

2. PAST PERFORMANCE EVALUATION FACTORS:

Past performance includes but is not limited to, the offeror's record of conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior. The Government will use the past performance evaluation factors marked below:

- Automated Best Value System (ABVS) (as defined below)
- Socioeconomic Support
- DLA Mentoring Business Program
- JWOD

ABVS

The government will consider the offeror's ABVS score** and any other information provided relating to the offeror's performance (see Section L). The Government will review and evaluate the offerors reputation for conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior.

The Government may solicit information from an offeror's customers and business associates; federal, state, and local government agencies; and from other persons and organizations as deemed necessary. The Government reserves the right to limit the number of references it decides to query and to contact references other than those provided by the offeror.

An offeror's ABVS rating is an indicator of performance risk and will be evaluated first on the basis of past performance in the same Federal Supply Class (FSC) as the supplies being solicited. The Contracting Officer may consider the volume of business on which the performance score is based as a measure of confidence in the FSC score. A vendor's overall score may also be evaluated when a satisfactory measure of confidence cannot be obtained from the FSC score or if a vendor has no FSC score. The Contracting Officer may also take into consideration any other available and relevant past performance data. An offeror with no performance history in any FSC procured by DLA will be identified as a new offeror and will not be scored by the ABVS on performance. However, any other available and relevant past performance data may be considered in rendering an award decision. Regardless, the status of being a new offeror will not be grounds for disqualification for an award. New offerors may be considered more favorably than scored offerors with a poor performance record. Also, the desirability of expanding the supplier base and possible competition enhancement in future procurements will be considered in the source selection decision when new offerors are present.

** The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our

Business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM

software, real time data and actual transactions such as solicitations and awards. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

****Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.**

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX.
